**Remarks/Market Observations:**

**The following observations were gathered from market personnel and vendors this week:**

- Generally, minimal supplies of fresh marine commodities were observed among the monitored retail markets this week. This might have been attributed by the occurrence of Severe Tropical Storm "Florita" affecting Cagayan Valley, CAR, Ilocos region, Aurora, Nueva Ecija, Quezon Province, Camarines Norte, and Metro Manila. Nevertheless, availability of local-fresh galunggong lalaki (*Decapterus macrosoma*) was still recorded in all the monitored wet markets this week chiefly sourced from Navotas Fish Port.
- Meanwhile, presence of medium-sized imported-frozen galunggong lalaki was recorded in five (5) monitored retail markets this week particularly Trabajo, Commonwealth, Mega-Q, Balintawak, and Muñoz. Supplies were reportedly obtained from Navotas Fish Port.
- Displays of medium-sized alumahan (*Rastrelliger kanagurta*) was also recorded this week derived mainly from Malabon Fish Port.
- Nonetheless, adequate display of aquaculture commodities are continuously observed at the monitored retail markets the entire week. However, minimal increment in the price of tilapia obtained from Batangas was reported by the fish vendors this week. Price increment may be due to the minimal supply of tilapia coming from Batangas which could be caused by the fish kill that hits Taal Lake, specifically in the town of Agoncillo reported by the Municipal Agriculture on Tuesday, August 9, 2022.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
  - Bangus - Dagupan
  - Tilapia - Batangas
  - Local Galunggong - Navotas Fish Port
  - Imported-Frozen Galunggong- Navotas Fish Port
  - Alumahan - Malabon Fish Port
- Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

**General Observations:**

**Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.**

- Gerres* spp. or Latab - (Php260.00 - 360.00/kg) -lowest prevailing price of Php260.00/kg was noted at primary market (i.e., Malabon Central) which supply are sourced from its nearby wholesale market (i.e., Malabon Fish Port). Meanwhile, highest recorded price of Php360./kg was noted secondary market (i.e., Guadalupe) wherein supply are sourced only from its nearby primary market (i.e., Farmers), hence offer in a higher price.
- Scarus* spp. or Mol-mol - (\*Php90.00/kg - 200.00/kg) -lowest prevailing price of Php90.00/kg were recorded in Navotas (retail) which supplies are directly sourced from wholesale market. Meanwhile, highest recorded price of Php200.00/kg was noted in Muñoz market wherein supplies are sold in a delivered price, hence the higher price.

(-) - Price and Volume not available during price monitoring  
 (\*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.  
 NA - Source Area not available during price monitoring

Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators  
 Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators
