<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, minimal but sufficient quantities of fresh marine commodities were observed at the monitored retail markets this week. This could be due to rainy weather condition brought about by the Southwest Monsoon or Habagat affecting Ilocos Region, Batanes, Babuyan Islands, Zambales, Bataan, Metro Manila and the rest of the country. Nonetheless, sufficient volumes of supply were recorded for local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) this week. This resulted to a decreased in prevailing retail price at Php200.00/kg this week compared from previous week at Php280.00/kg. For imported-frozen galunggong, limited supply was observed and were only available in some of the monitored retail markets (i.e., Commonwealth, Tandang-Sora, Mega-Q, Balintawak, Munoz, Galas, & Guadalupe) this week. Some of the vendors still prefer selling imported galunggong due to its cheaper price making it easier to sell. Ample supply of medium-sized alumahan was observed at the monitored retail markets this week. The recorded prevailing retail prices of the commodity were Php240.00/kg, Php260.00/kg, and Php300.00/kg this week. Difference in the prices may be attributed to the dissimilarity in the source area, and quality (freshness) of the commodity. Most of the supplies were still sourced from Lucena, Quezon, Malabon Fish Port, and Navotas Markets. The prevailing retail price of bangus was still recorded at Php160.00/kg this week due to the sufficient supply and stable demand at the monitored retail markets. Vendors still prefer selling bangus from Pangasinan due to its higher demand from the consumers. Also, according to vendors, most of the vendors prefer larger size. Higher prevailing retail price was observed for tilapia at Php140.00/kg this week. According to vendors, the increased in the price may be attributed to the continuous high cost of petroleum in the country. There is a Php20-30/kg price difference between live and fresh-chilled tilapia. Also, higher prices was observed for tilapia from Batangas compared to tilapia sourced from Pampanga. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas & Malabon Fish Ports Alumahan - Malabon Fish Port Low influx of buyers was continuously observed among the monitored markets today. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are: <ul style="list-style-type: none"> Wearing of face mask and hand sanitizer Observing 1-meters social distancing Limiting the number of people in the market Limiting the number of people in the market Limiting the number of people in the market <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Caranx</i> sp. or Talakitok (Php300.00/kg & 500.00/kg) - lowest prevailing price of Php300.00/kg were recorded from Marikina and Guadalupe Markets where supplies recorded were small-sized and not in good quality. Highest prevailing price of Php500.00/kg was noted at Farmers and Guadalupe Markets where supplies recorded were in good quality and larger in size. <i>Gerres oyena</i> or Latab (Php220.00-360.00/kg) - lowest prevailing price of Php220.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php360.00/kg were noted from secondary Market, Guadalupe market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. <i>Tylosorus</i> sp. or Batalay (Php50.00-150.00/kg) - the higher and lowest prevailing price were both recorded at Navotas Market. The difference in the price was due to the dissimilarity in size where the supplies at the price of Php50.00/kg were in small-sized and the supplies at the price of Php150.00/kg were large-sized. 																																				
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
