Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> As observed, fish vendors opted to purchased small volume of fish to ensure all supplies will be sold out by the end of the day to avoid losses. Consequently, minimal displays were noted among the monitored markets and some of the observed commodity were remaining stocks from previous market days. For medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), supplies were still available at the monitored retail markets this week. Moreover, supplies were majorly obtained from Navotas Fish Port (NFP). For medium-sized imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>), eight (8) markets (i.e., Trabajo, Quinta, Commonwealth, Mega-Q, Balintawak, Muñoz, Galas, and Pasig) have recorded the commodity this week sourced from NFP. For medium-sized alumahan, the commodity remained noted this week chiefly derived from Malabon Fish Port (MFP). Further, availability of ther varians (i.e., hasa-hasa) were also present particularly at Commonwealth and Tandang Sora Markets. Lastly, ample supplies of medium-sized bangus and tilapia were reported at the monitored retail markets. Nevertheless, prices may have been affected by the fuel price hike in the country that caused higher logistic. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Dagupan b. Tilapia - Batangas c. Local Galunggong -Navotas Fish Port d. Imported-Frozen Galunggong- Navotas Fish Port d. Alumahan - Malabon Fish Port Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. 																							
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Jagora asperata</i> or Suso pilipit - (Php100.00 - 200.00/kg) -lowest prevailing price of Php100.00/kg was noted Malabon Central which supply are noted to have smaller size sourced from Malabon Fish Port. In contrary, larger sizes of the commodity was noted in Marikina market which have recorded the highest price of Php200.00/kg sourced from Cavite. <i>Lates calcalifer</i> or Apahap - (Php300.00/kg - 450.00/kg)- both prevailing prices were recorded in Guadalupe market wherein, the lowest recorded price of Php300.00/kg were sourced directly from Malabon Fish Port. On the other hand, the highest recorded price of Php450.00/kg was only sourced from secondary market (i.e., Farmers), hence 																							
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
