<b>Remarks/Market Observations:</b>	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Overall, minimal displays of fresh marine commodities were observed among the monitored retail markets this week. Similarly, limited availability of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted alongside the implementation of Closed Fishing Season (CFS) for the commodity in Northern Palawan.</li> <li>In connection to this, more supplies of medium-sized imported-frozen galunggong lalaki were observed at the monitored retail markets throughout the week derived mainly from Navotas Fish Port. Moreover, presence of other imported fishery commodities were also noted at the retail markets that includes galunggong babae (<i>Decapterus russelli</i>), pampano (<i>Trachinotus blochii</i>), salmon (<i>Salmo salar</i>), hiwas (<i>Mene maculata</i>), and pusit kalawang (<i>Todarodes</i> sp.).</li> <li>Meanwhile, limited availability of medium-sized alumahan was continuously observed at the monitored retail markets this week. Nonetheless, supplies of other variant i.e., hasa-hasa (<i>Rastrelliger brachysoma</i>) was still noted.</li> <li>For aquaculture commodities (i.e., bangus and tilapia), adequate displays were observed among the monitored retail markets this entire week. However, high wholesale prices of the said commodities were reported by fish vendors. This could possibly be due to the limited unloading's of the commodity wherein fish farmer might limit their harvest to attain maximum maturity of their stocks which will have better demand and pricing in the upcoming holiday season.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Malabon Fish Port</li> <li>Imported-Frozen Galunggong- Navotas Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> <li>Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.</li> </ol> <p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Penaeus monodon</i> or Suppo (Medium) (Php650.00-850.00/kg)- lowest prevailing price of Php650.00 was noted in Malabon Central market wherein the supply recorded was sourced directly from Malabon Fish Port. Meanwhile, supply observed in Farmers market was reportedly delivered price hence offer relatively higher.</li> <li><i>Scylla serrata</i> or Alimango (mix) (Php220.00-400.00/kg)- both prevailing price were noted in Caloocan market, wherein lowest recorded price of Php220.00/kg was observed smaller as compared to the highest recorded price of Php400.00/kg which have larger size, hence offer in premium price.</li> <li><i>Auxis thazard</i> or Tulingan lapad- (Php180.00 &amp; 280.00/kg)- lowest prevailing price of Php180.00/kg was recorded in Balintawak a and Pasig market, wherein the supply observed was low quality in terms of freshness hence offer relatively lower as compared to the highest recorded price of Php280.00/kg noted in Muñoz and Marikina market which supplies was observed to have better quality, hence offer in a higher price.</li> <li><i>Jagora asperata</i> or Suso pilipit - (Php100.00 &amp; 200.00/kg)-lowest prevailing price of Php100.00/kg was noted Malabon Central which supply are noted to have smaller size sourced from Malabon Fish Port. In contrary, larger sizes of the commodity was noted in Marikina market which have recorded the highest price of Php200.00/kg sourced from Cavite.</li> </ol> <p>(-) - Price and Volume not available during price monitoring  (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
