<i>Xiphias gladius</i>	Swordfish	Marlin	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-				NA
<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Limited displays of fresh marine commodities were observed among the monitored retail markets this week. Relatively, limited availability of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) and local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) were recorded this week. This might have been due to the following reasons: <ul style="list-style-type: none"> * Hampered fishing operations brought by the unfavorable weather condition caused by the Low Pressure Area (LPA); * Closed fishing season (CFS) of galunggong (<i>Decapterus</i> spp.) in Northern Palawan; and * Closed fishing season of sardines, mackerel, and herring in Visayan Sea; Nonetheless, supply of other variants of galunggong (i.e. balsa and galunggong babae) were noted this week. Meanwhile, supply of Hasa-hasa (<i>Rastrelliger brachysoma</i>) was also observed in some of the monitored retail markets. On the other hand, ample availability of imported-frozen galunggong lalaki was observed among the monitored retail markets as more vendors opted to purchase the commodity due to its cheaper price making it easier to sell in the market. Availability of other imported-frozen fishery commodities were also observed including pomfret, Atlantic salmon, and squid. Still, adequate display of aquaculture commodities (i.e., bangus and tilapia) were recorded in the monitored retail markets. However, no medium-sized bangus was observed at Tandang Sora market as vendors prefer selling large-sized commodity due to better demand in the said market. Meanwhile, majority of the supply of tilapia noted particularly in Commonwealth market was sourced from Pampanga due to its cheaper wholesale price. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Malabon Fish Port Imported-frozen Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. 																									
<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Jagora asperata</i> or suso pilipit (Php100.00-200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php200.00/kg were noted from secondary Market, Marikina market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. <i>Parastromateus niger</i> or Pampano itim- (Php350.00-450.00/kg)- lowest prevailing price of Php350.00/kg was noted in primary market (i.e., Malabon Central) wherein supplies are usually sourced directly from nearby wholesale market. Additionally, smaller size of the commodity was recorded. Meanwhile, highest recorded price of Php450.00/kg was noted in secondary market (i.e., Guadalupe market) and observed to have larger sizes as compared to the supply noted in Malabon Central market. <i>Scatophagus argus</i> or Kitang- (Php250.00-380.00/kg)- both prevailing price were recorded in Guadalupe market wherein the lowest recorded price of Php250.00/kg was observed smaller as compared to the highest recorded price of Php380.00/kg sourced from Farmers (wholesale). <i>Venerupis</i> spp. or Halaan (Php100.00, 140.00, 240.00/kg)- Similarly, both prevailing price was noted in Muñoz market wherein difference in price was due to the variation of sizes of the commodity, wherein the lowest recorded price of Php100.00/kg was noted smaller as compared to the highest recorded price of Php240.00/kg. 																									
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
