Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Presence of Low Pressure Area (LPA) in the East of Surigao City, Surigao del Sur continues to caused rainy weather condition in the country particularly in Bicol region, Romblon, Eastern Visayas, Central Visayas, Northern Mindanao, Negros Occidental, Zamboanga del Norte, Zamboanga del Sur, Agusan del Norte, Surigao del Norte, and Dinagat Islands. This resulted to minimal display of fresh marine commodities were recorded among the monitored retail markets this week. Supplies of fresh marine commodities like local galunggong, mackerels, sardines and herrings remain limited at the monitored retail markets due to the ongoing implementation of Closed Fishing Season (CFS) for local galunggong (<i>Decapterus</i> spp.) at Northern Palawan last 1 November and for sardines, herrings, & mackerels at Visayan Sea last 15 November 2022. The prevailing retail price of local galunggong remained at Php240.00/kg and for medium-sized alumahan at Php300.00/kg. There are other local galunggong variants such as "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were noted in some of the monitored retail markets this week Due to the minimal supply of local-fresh galunggong, vendors look for a substitute or alternative supply which resulted to adequate supply of imported-frozen galunggong among the monitored retail markets. Some of them prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell. The prevailing retail price of imported-frozen galunggong remained stable at Php200.00/kg this week. Most of the vendors were observed selling imported-frozen galunggong due to its cheaper price making it easier to sell. There are other imported commodities like pampano, salmon, mackarel, chabeta, tulingan, and matambaka observed this week. No changes were observed at the prevailing retail prices of aquaculture commodities like bangus and tilapia. The prevailing retail prices remained at Php160.00/kg and Php120.00/kg, respectively. This may be attributed to the stable demand and sufficient supply among the monitored retail markets this week. Most of the supplies available were small and large-sized only. There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas & Malabon Fish Ports Alumahan - Malabon Fish Port Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 MICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.
