		Female	-	85 & 95	85 & 95	95	85	-	Vietnam

**Remarks/Market Observations:**

**The following observations were gathered from market personnel:**

- Minimal but sufficient volumes of fresh marine commodities were unloaded at Navotas Fish Port (wholesale) this week. Commodities recorded were tambakol, lumot, pusit, lapad, dilis, kabase, gulyasan, chabeta, and others.
- The ongoing implementation of Closed Fishing Season for local galunggong at Northern Palawan last November 1 and for sardines, herrings, mackarels at Visayan Sea last November 15 resulted to no supply available for local galunggong and alumahan at the Navotas Fish Port this week.
- There is an increase in the supply of imported-frozen galunggong observed at the Navotas Fish Port this week. The high prevailing wholesale price at Php145 & 155/kg may be attributed to the high demand caused by the unavailability of supply for local galunggong.
- For bangus, the prevailing wholesale price remained at Php130.00/kg due to the stable and sufficient supply at the market.
- No changes were observed for the prevailing wholesale price of tilapia Php105 & 110/kg due to the stable and sufficient supply at Navotas this week.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
  - Bangus - Bulacan, Pangasinan
  - Tilapia - Batangas
  - Local galunggong- NA
  - Alumahan- NA
  - Imported galunggong - China, Vietnam
- Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

*Note: Wholesale price data is as of December 30, 2022 and January 7, 2023, as price data from PFDA was not provided within the internal cut off of the covering period of this report.*

(-) - Price and Volume not available during price monitoring

(\*\*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA- Source Area not available during price monitoring
