Remarks/Market Observations:			<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Limited supplies of fresh marine commodities were still observed among the monitored retail markets this week. This might be attributed to the occurrence of full moon on 05 February 2023, wherein fishes tends to go deeper making it harder for them to catch. More specifically, for medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), despite the lifting of Closed Fishing Season (CFS) on 01 February 2023 minimal displays of the commodity was recorded in the markets this week. Due to the minimal availability of local galunggong, supplies of medium-sized imported-frozen galunggong lalaki remained prevalent in the monitored retail markets this week. The recorded prevailing prices were Php200.00/kg and Php240.00/kg sourced from Navotas Fish Port, Malabon Fish Port, and Farmers market (wholesale). Price difference may be attributed to the varying quality (in terms of sizes and freshness) of the imported galunggong lalaki. Supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) were still unpredictable in the monitored retail markets this week. Most of the supplies present were large-sized alumahan chiefly sourced from Malabon Fish Port. Moreover, availability of other variant (i.e., hasa-hasa) was recorded in some of the monitored retail markets this week. Sufficient supplies of medium-sized bangus were still recorded in the monitored retail markets this week. The recorded price changed from Php160.00/kg on the first week of February to Php160.00/kg and Php180.00/kg this week. Price difference may be due to the varying source areas of available supplies in the markets. In fact, supplies with recorded price of Php160.00/kg were sourced from Bulacan. Meanwhile, supplies with recorded price of Php180.00/kg were derived from Pangasinan. Consequently, for medium-sized tilapia, adequate supplies of the commodity was observed among the monitored retail markets this week. Prices may vary depending on the quality (in terms of sizes, freshness) and source areas. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Malabon Fish Port Imported-frozen Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port Low influx of buyers are still observed among the monitored markets. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.ezon</p> <ol style="list-style-type: none"> <i>Jagora asperata</i> or suso pilipit (Php100.00-200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php200.00/kg were noted from secondary Market, Marikina market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. <i>Lethrinus miniatius</i> or Bililya (Php260.00-400.00/kg) - Similarly, lowest prevailing price of Php200.00/kg was recorded in primary market (i.e., Marikina market) wherein supplies are sourced from Lucena, Quezon. Meanwhile, highest recorded price of Php400.00/kg was noted in secondary market (i.e., Guadalupe market) which supplies are sourced only from primary market (i.e., Farmers), hence higher price was noted. <i>Pseudorhombus</i> sp. or Dapa- (Php320.00-450.00/kg)-both prevailing prices were recorded in Malabon market wherein the lowest recorded price of Php320.00/kg was observed smaller as compared to the highest recorded price of Php450.00/kg which have better quality in terms of size. 																						
<p>(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.</p> <p>NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>			<p style="text-align: center;"> SGD DAVE P.
