<div><div>R12</div><div>WEEK 1-JANUARY 2-6, 2023</div><div>Minimal supplies of fishery commodities were observed in the monitored markets (i.e., General Santos, Glan, and Kidapawan) this week.</div><div>Price increment of some fishery commodities might be due to affected by the increased in the demand of the commodity.</div><div>WEEK 2-JANUARY 9-13, 2023</div><div>Due to the bad weather condition, limited supply of fishery commodities were observed in the monitored markets.</div><div>WEEK 3-JANUARY 16-20, 2023</div><div>Overall, due to the inclement weather condition, minimal volume of fishery commodities were observed in the monitored markets.</div><div>Hence, prices were still high, as supplies remained minimal.</div><div>WEEK 4-JANUARY 23-27, 2023</div><div>Minimal supply of fresh marince commodities were observed in the monitored wet markets. The minimal availability of marine commodities could be due to the bad weather condition that hampers fishing operations.</div><div>Meanwhile, for aquaculture commodities (e.g., bangus, tilapia, and others), sufficient supplies of the commodities were noted during the conduct of price monitoring.</div><div>R13</div><div>WEEK 2-JANUARY 9-13, 2023</div><div>Price may be affected by the minimal availability of fishery commodities in the markets.</div><div>Supplies of fishery commodities might be affected by the bad weather condition that hampers fishing operations.</div><div>WEEK 3-JANUARY 16-20, 2023</div><div>Low demand for fishery commodities were observed in the monitored markets.</div><div>Supplies remained minimal which may be caused by the bad weather condition.</div></div>																					
<div><div>NCR</div><div><div>The following observations were gathered from market vendors and administrators for the month of January:</div><div><div>1. Still, limited display of fresh marine commodities were observed among the monitored retail markets this month. Consequently, minimal availability of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) and local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) were recorded. This might have been due to the following reasons:</div><div><div>* Hampered fishing operations brought by the unfavorable weather condition caused by the Low Pressure Area (LPA);</div><div>* Closed fishing season (CFS) of galunggong (<i>Decapterus</i> spp.) in Northern Palawan; and</div><div>* Closed fishing season of sardines, mackerel, and herring in Visayan Sea;</div></div><div>2. Nonetheless, supply of other variants of galunggong (i.e., balsa and galunggong babae) were present this month. Moreover, supply of hasa-hasa (<i>Rastrelliger brachysoma</i>) was also observed throughout the month.</div><div>3. Ample supplies of imported-frozen galunggong lalaki were still observed this month as majority of the vendors prefer to sell the imported galunggong due to its affordable price and considered as substitute for local galunggong. Presence of other imported-frozen commodities (i.e., Atlantic Salmon, Chub mackerel, Squid, Pampano, Moonfish, Indian scad, and Bullet tuna) were also noted.</div><div>4. Sufficient availability of aquaculture commodities (i.e., bangus and tilapia) were still observed among the monitored retail markets this month. On the other hand, only large-sized bangus was recorded in Tandang Sora market as vendors prefer larger sizes due to its better demand and pricing. For tilapia, majority of the supplies particularly in Commonwealth market were from Pampanga due to its lower price as compared to the supply from Batangas.</div><div>5. Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas:</div><div><div>a. Bangus - Bulacan, Pangasinan</div><div>b. Tilapia - Batangas, Pampanga</div><div>c. Local Galunggong - Malabon Fish Port</div><div>d. Imported Galunggong - Navotas Fish Port</div><div>e. Alumahan - Malabon Fish Port</div></div></div></div></div>																					
<div><div>General Observation</div><div>Fluctuation in the prices of the top fifteen (15) and other commodities are influenced by a number of factors such as the commodity’s size, quality, volumes of available supply, source area, as well as the weather condition and other natural phenomena.</div><div>1. <i>Scylla serrata</i> or Alimango (Mixed) (Php 400.00 & 500.00 /kg) - supplies with the lowest prevailing price of Php 400.00/kg were recorded in Region 5, Region 9, Region 10 and CARAGA wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 500.00/kg were recorded in Region 1, Region 2, Region 7 and NCR wherein the available supply were larger in size.</div><div>2. <i>Rastrelliger kanagurta</i> or Alumahan (Mixed) (Php 120.00-480.00 /kg) - supplies with the lowest prevailing price of Php 120.00/kg were recorded in Region 9 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 480.00/kg were recorded in Region 6 wherein the available supply were larger in size.</div><div>3. <i>Lutjanus</i> sp. or Maya-maya (Php 380.00 & 500.00 /kg) - supplies with the lowest prevailing price of Php 380.00/kg were recorded in CAR, Region 5, Region 6 and Region 11 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 500.00/kg were recorded in Region 4A, Region 7, Region 10 and Region 12 wherein the available supply were larger in size.</div><div>4. <i>Alepes djedaba</i> or Salay batang (Php 240.00-440.00 /kg) - supplies with the lowest prevailing price of Php 240.00/kg were recorded in Region 3 wherein the said commodity were smaller in size, hence, price was lower. Meanwhile, supplies with the highest prevailing price of Php 440.00/kg were recorded in Region 4A wherein the available supply were larger in size, hence, price was higher.</div><div>5. <i>Anodontia edentula</i> or Imbao (Php 120.00 & 250.00 /kg) - supplies with the lowest prevailing price of Php 120.00/kg were recorded in Region 10 wherein the said commodity were smaller in size, hence, price was lower. Meanwhile, supplies with the highest prevailing price of Php 250.00/kg were recorded in Region 11 wherein the available supply were larger in size, hence, price was higher.</div><div>6. <i>Caesio cuning</i> or Dalagang Bukid Lapad (Php 200.00 & 300.00 /kg) - supplies with the lowest prevailing price of Php 200.00/kg were recorded in Region 1 and Region 8 wherein the said commodity was smaller in size, hence, price is lower compared to Region 7 and Region 10.</div><div>7. <i>Carangoides malabaricus</i> or Talakitok (Php 340.00-450 /kg) - both the lowest and highest prevailing prices of Php 340.00/kg and Php 450.00/kg, respectively, were recorded in Region 6. Retail prices recorded were influenced by the varying sizes, quality (in terms of freshness), and volume of supplies available.</div><div>8. <i>Caranx ignobilis</i> or Talakitok (Php 350.00-450.00 /kg) - supplies with the lowest prevailing price of Php 350.00/kg were recorded in Region 2 wherein the said commodity was smaller in size, hence, price is lower compared to Region 4A.</div><div>9. <i>Caranx sexfasciatus</i> or Talakitok (Php 250.00-480 /kg) - supplies with the lowest prevailing price of Php 250.00/kg were recorded in Region 1 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 480.00/kg were recorded in Region 4A wherein the available supply were larger in size.</div><div>10. <i>Caranx</i> sp. or Talakitok (Php 250.00-550 /kg) - supplies with the lowest prevailing price of Php 250.00/kg were recorded in Region 9 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 550.00/kg were recorded in Region 4A wherein the available supply were larger in size.</div><div>11. <i>Elagatis</i> sp. or Salmon (Php 80.00-350 /kg) - both the lowest and highest prevailing prices of Php 80.00/kg and Php 350.00/kg, respectively, were recorded in Region 9. Retail prices recorded were influenced by the varying sizes, quality (in terms of freshness), and volume of supplies available.</div><div>12. <i>Gnathanodon speciosus</i> or Talakitok (Php 250.00 & 500 /kg) - supplies with the lowest prevailing price of Php 250.00/kg were recorded in Region 11 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 500.00/kg were recorded in Region 7 wherein the available supply were larger in size.</div><div>13. <i>Jagora asperata</i> or Suso pilipit (Php 100.00-200.00 /kg) - both the lowest and highest prevailing prices of Php 100.00/kg and Php 200.00/kg, respectively, were recorded in NCR. Retail prices recorded were influenced by the varying sizes, quality (in terms of freshness), and volume of supplies available.</div><div>14. <i>Leiognathus splendens</i> or Sapsap (Php 240.00-400.00 /kg) - supplies with the lowest prevailing price of Php 240.00/kg were recorded in Region 5 wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 400.00/kg were recorded in Region 4A wherein the available supply were larger in size.</div><div>15. <i>Lethrinus</i> sp. or Kanuping (Php 160.00-500 /kg) - supplies with the lowest prevailing price of Php 160.00/kg were recorded in Region 4B wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 500.00/kg were recorded in Region 7 wherein the available supply were larger in size.</div><div>16. <i>Lutjanus argentimaculatus</i> or Laya (Php 250.00-400 /kg) - supplies with the lowest prevailing price of Php 250.00/kg were recorded in Region 4B wherein the said commodity were smaller in size. Meanwhile, supplies with the highest prevailing price of Php 400.00/kg were recorded in Region 10 wherein the available supply were larger in size.</div><div>17. <i>Naso hexacanthus</i> or Gangis (Php 200.00-300.00 /kg) - both the lowest and highest prevailing prices of Php 200.00/kg and Php 300.00/kg, respectively, were recorded in Region 11. Retail prices recorded were influenced by the varying sizes, quality (in terms of freshness), and volume of supplies available.</div></div>
