Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal display of fresh marine commodities were still observed among the monitored retail markets this week. This might be attributed due to the hampered fishing operations brought by the unfavorable weather condition caused by the Low Pressure Area (LPA) in Maasin City, Leyte and West Northwest of Puerto Princesa City, Palawan. Moreover, the Northeast monsoon or "Amihan" continues to affect selected portion of the country particularly in Bicol Region, and Quezon Province. For medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), limited supplies were noted this week as closed fishing for the commodity continues to be implemented at Northern Palawan. Similarly, limited availability of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was observed in the monitored retail markets this week. Meanwhile, supplies of other variant of the commodity (i.e., Hasa-hasa) was still noted sourced mainly from Lucena, (Quezon). In contrary, adequate supplies of imported-frozen galunggong lalaki was observed this week as fish vendors prefer to purchased the imported commodity due to its cheaper price making it easier to sell in the market. Further, presence of other imported commodity (i.e., Atlantic salmon, Pompret, and Squid) were also recorded throughout the week. Sufficient supplies of bangus and tilapia were observed in the monitored retail markets this week. However, vendors particularly in Tandang Sora market were observed selling only large-sized bangus due to better demand in the said market. On the other hand, majority of the supplies of tilapia noted in Commonwealth market were sourced from Pampanga due to its lower wholesale price as compared to the supplies from Batangas enabling the vendors to sell the commodity at affordable price. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Farmers market (wholesale) Imported-frozen Galunggong - Navotas Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Penaus monodon</i> or Sugpo (Php650.00 & 1300.00/kg) - lowest prevailing price of Php650.00/kg was noted in Malabon Central market wherein supplies were observed lower in quality in terms of freshness as it is leftover from the previous market days as compared to the supplies noted in Farmers market which observed to have better quality in terms of freshness sourced from Bulacan. <i>Jagora asperata</i> or suso pilipit (Php100.00-200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php200.00/kg were noted from secondary Market, Marikina market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. <i>Pagellus centrodontus</i> or Bakoko- (Php220.00-400.00/kg)-both prevailing prices were recorded in Guadalupe market wherein the lowest recorded price of Php220.00/kg was observed smaller as compared to the highest recorded price of Php400.00/kg sourced from Farmers (wholesale). 																									
<p>(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
