Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal but still sufficient supplies of fresh marine commodities were observed among the monitored retail markets this week. This might be attributed to the hampered fishing operations brought by the effect of Low Pressure Area (LPA) in the east northeast of Casiguran Aurora. On the other hand, availability of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was observed throughout the week sourced mainly from Lucena (Quezon). Ample display of imported-frozen galunggong lalaki were still observed this week more specifically in Balintawak and Muñoz markets wherein vendors prefer selling the commodity due to its cheaper price making easier for them to sell. Limited supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) were still noted this week among the monitored retail markets as majority of the supplies were large-sized sourced mainly from Malabon Fish Port. Presence of Hasa-hasa (<i>Rastrelliger brachysoma</i>) was also noted today. Adequate supplies of aquaculture commodities (i.e., bangus and tilapia) were also noted this week at the monitored retail markets. Meanwhile, minimal increment in the prevailing price of tilapia was noted in Commonwealth market on 21 February 2023 as majority of the supply of the commodity was sourced from Batangas which have noted to be bigger in size (3pcs/kg) as compared to the supply of tilapia from Pampanga (4-5pcs/kg). Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Lucena (Quezon) Imported-frozen Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port High prices of marine fishery commodities were still observed throughout the week among the monitored retail markets. This might be attributed due to the hampered fishing operations brought by the effect of Low Pressure Area (LPA) in the country. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.ezon</p> <ol style="list-style-type: none"> <i>Caesio caerulea</i> or Dalagang bilog (Php240.00-360.00/kg)- both prevailing prices were recorded in Muñoz market, wherein the lowest price of Php240.00/kg was sourced in Navotas Fish Port which observed to have low quality in terms of freshness as compared to the supply sourced from Malabon Fish Port which have recorded the highest price of Php360.00/kg. <i>Lethrinus miniatus</i> or Bitilya (Php260.00-380.00/kg)- Meanwhile, lowest prevailing price of Php280.00/kg was noted in primary market (i.e., Marikina market) wherein supply are directly sourced from wholesale market and or unloaded in the market. Hence, supply are usually offer in a lower price. On the other hand, highest recorded price of Php360.00/kg was noted in secondary market which supply are sourced usually from primary market (i.e., Farmers). Hence, offer relatively higher. <i>Priacanthus macracanthus</i> (Php320.00-450.00/kg)- Similarly, lowest prevailing price of Php320.00/kg was noted in primary market (i.e., Marikina market) wherein supply are directly sourced from wholesale market and or unloaded in the market. Hence, supply are usually offer in a lower price. On the other hand, highest recorded price of Php450.00/kg was noted in secondary market which supply are sourced usually from primary market (i.e., Farmers). Hence, offer relatively higher. <i>Selar</i> sp. or Matambaka (Php200.00-380.00/kg)- On the other hand, lowest prevailing price of Php200.00/kg was noted in Pasig market wherein supply was noted smaller and low in quality in terms of freshness as compared to the supply noted in Marikina market which have premium quality in terms of freshness and larger size. 																								
<p>(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.</p> <p>NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
