5. <i>Decapterus sp.</i>	Scad	Imported								
		Male	140	140	140	-	Vietnam			
		Female	**100	**100	**100	-	Vietnam			

Remarks/Market Observations:

The following observations were gathered from market personnel:

- Minimal but sufficient availability of fresh marine commodities were noted at Navotas Fish Port (wholesale) this week. Among the commodities recorded were sapsap, tambakol, gulyasan, dalagang bukid, silinyase, alakaak, dilis, pusit, alimasag, kabase, and others. More specifically, for medium-sized local-fresh galunggong lalaki (*Decapterus macrosoma*), four (4) brokers unloaded the commodity on 17 February 2023 with prevailing wholesale price of Php180.00/kg sourced from Zambales and Palawan. Further, supplies of small-sized galunggong lalaki from Palawan were also observed in the fish port.
- Meanwhile, for medium-sized imported-frozen galunggong lalaki the prevailing wholesale price was stable at Php140.00/kg chiefly sourced from Vietnam.
- Supply of medium-sized alumahan (*Rastriliger kanagurta*) remained unavailable this week at Navotas Fish Port.
- Adequate supplies of bangus and tilapia were still noted at the Navotas Fish Port (wholesale) this week with a recorded prevailing price of Php140.00/kg (Bulacan) and Php160.00/kg (Pangasinan). However, majority of the unloaded supplies of bangus from Pangasinan were still large-sized.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas
 - Local Galunggong- Zambales, Palawan
 - Alumahan- Not available
 - Imported galunggong - Vietnam
- High prices of marine fishery commodities were still observed throughout the week at Navotas Fish Port wholesale. This might be attributed due to the hampered fishing operations brought by the effect of Low Pressure Area (LPA) in the country.

Note: *Wholesale price data is as of February 17, 2023, as price data from PFDA was not provided within the internal cut off of the covering period of this report.

(-) - Price and Volume not available during price monitoring
 (**) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market.
 This could be due to limited volumes or no available supplies at the time of monitoring.
 NA- Source Area not available during price monitoring
