Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, minimal but still sufficient supplies of fresh marine commodities were recorded among the monitored retail markets this week. Meanwhile, limited availability of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted on 3 March 2023 (Friday), wherein majority of the vendors particularly in Commonwealth market was observed selling imported-frozen commodity to substitute the demand of the local variant. Meanwhile, low demand among the monitored wet markets were still observed this week. As a result, more fish vendors were noted selling limited variant and volume of stocks to adapt with the situation in the markets and avoid losses. Similarly, limited supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) were still noted this week among the monitored retail markets sourced mainly from Malabon Fish Port. On the other hand, presence of Hasa-hasa (<i>Rastrelliger brachysoma</i>) was also noted this week. There remain to have sufficient supplies of bangus and tilapia were noted at the monitored markets this week. Majority of the displayed tilapia noted on 28 February 2023 (Tuesday) in Commonwealth market was sourced from Pampanga due to cheaper price making easier for the fish vendors to sell. However, no supply of medium-sized bangus was still observed in Tandang Sora market this week as vendors prefer selling larger size due to better demand and pricing. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Malabon and Navotas Fish Port Imported-frozen Galunggong - Navotas Fish Port Alumahan - Navotas Fish Port Relatively, high prices of marine fishery commodities were still observed throughout the week among the monitored retail markets. This might be attributed due to the hampered fishing operations brought by the effect of Northeast monsoon "Amihan" in the country. Higher logistical cost brought by the expensive fuel prices may also contributed. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Rastrelliger kanagurta</i> or Alumahan-medium (Php260.00, 280.00, 360.00, 380.00/kg)-lowest prevailing price of Php260.00/kg was recorded in Commonwealth market wherein supplies observed were low quality in terms of freshness (leftover from the previous market days) as compared to the supply sourced noted in Farmers market which have noted to have better quality in freshness and has larger size medium to large sourced from Lucena, Quezon. Hence, recorded the highest price of Php380.00/kg. <i>Atule mate</i> or Salay batang (Php260.00-440.00/kg)- both prevailing prices was recorded in Commonwealth market, wherein the lowest prevailing price of Php260.00/kg was noted to be low quality in terms of freshness as it is leftover from the previous market days, hence offer in a lower price. On the other hand, the highest recorded price of Php440.00/kg was noted to have premium quality (in terms of freshness) as it is new stocks sourced from Lucena, Quezon. <i>Mullus surmuletus</i> (Php260.00-440.00/kg)-Meanwhile, lowest prevailing price of Php260.00/kg noted in Pasig Market are sourced directly from wholesale market (i.e., Navotas Fish Por). Hence, supply are usually offer in a lower price. On the other hand, highest recorded price of Php440.00/kg was noted in Marikina market which supply are sourced from Lucena, Quezon (bought in a delivered price). Hence, offer relatively higher. 																							
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market.
