Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Sufficient volume of fresh marine commodities were observed among the monitored retail markets this week. Fresh marine commodities recorded were dalagang bukid, gulyasan, tamban, lapad, dilis, kabase, tambakol, bisugo, betilla, and others. More supplies of local-fresh galunggong were noted at the monitored retail market this week. This may be attributed to the lifting of Closed Fishing Season (CFS) for local galunggong (<i>Decapterus</i> spp.) at Northern Palawan last 1 Feb 2023. According to vendors, supplies were sufficient but not abundant, resulting to a stable high prevailing retail price at Php280.00/kg this week. Also, according to fish vendors, prices are expected to decrease as more supplies will be unloaded in the upcoming weeks. There are other local galunggong variants such as "balsa" (<i>Decapterus macrolepis</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) noted in some of the monitored retail markets this week. For imported-frozen galunggong, abundant supplies were still noted among the monitored retail market as minimal supply were observed for local galunggong. According to vendors, most of the vendors still sell imported rather than local due to its cheaper price making it easier to sell. The prevailing retail price of imported-frozen galunggong remained at Php200-240.00/kg. Other imported commodities like pampano, salmon mackerel, salmon head & belly, chabeta, gg babae, pusit kalawang, and tulingan were observed this week. Ample supplies of alumahan were recorded at the monitored retail market this week. According to vendors, more supplies will be observe for alumahan and sardines due to the lifting of CFS of mackerels, herrings, and sardines in Visayan Sea last Feb 15. The prevailing retail price remained at Php320.00/kg sourced mainly from Malabon and Lucena, Quezon. The prevailing retail price of bangus had a slight decrease at Php160.00/kg as most of the supplies recorded were sourced from Bulacan. The supply remained stable and sufficient to cater the demand from the consumers. Most of the vendors in Balintawak, Galas and Kamuning prefer selling large-sized bangus due to higher demand from the buyers. For tilapia, the prevailing retail price increased at Php140-150/kg this week. This may be attributed to the increase in the prices of feeds. Nonetheless, supply remained stable and sufficient at the market. There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas & Malabon Fish Ports Alumahan - Malabon Fish Port, Lucena Quezon Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. 																														
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Thunnus albacares</i> or Yellowfin- Head - (Php120.00/kg & 250.00/kg) - lowest prevailing price of Php120.00/kg were recorded at Marikina Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php250.00/kg was noted at Malabon Market where supplies recorded were in good quality. <i>Salmo salar</i> or Salmon-Meat - (Php750.00/kg & 880.00/kg) - lowest prevailing price of Php750.00/kg were recorded at Pasig Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php880.00/kg was noted at Marikina Market where supplies recorded were in good quality sourced from Lucena, Quezon. 																														
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
