Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Minimal volume of fresh marine commodities were noted among the monitored retail markets this week. This may be attributed to the occurrence of fullmoon last 07 March, wherein the bright light causes fishes to stay at the bottom of the ocean making it harder to catch.</li> <li>However, more supplies were observed for medium-sized local galunggong lakali (<i>Decapterus macrosoma</i>) at the monitored retail markets this week compared from previous weeks. This may be attributed to the lifting of Closed Fishing Season (CFS) for local galunggong (<i>Decapterus</i> spp.) at Northern Palawan last 1 February 2023. This resulted to a low prevailing retail price of Php200.00/kg this week. Most of the supplies recorded were small to medium-sized only and were mostly sourced from Navotas and Malabon fish ports. Higher retail price were still noted from Farmers Market as supplies were mainly sourced from Lucena (better quality in terms of freshness). Other local galunggong variants such as "balsa" (<i>Decapterus macarellus</i>), "baba" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were still recorded in some of the monitored retail markets this week.</li> <li>Ample supply of imported-frozen galunggong lakali were still noted at the monitored retail markets this week despite the abundant supply of local-galunggong. According to vendors, most of them still prefer selling imported-frozen galunggong, particularly in Commonwealth, Muñoz, Mega-Q, Trabajo and Quinta markets, due to its cheaper price making it easier to sell. The prevailing retail price of imported-frozen galunggong remained at Php200-240.00/kg. There were also other imported commodities like pampano, salmon mackarel, salmon head &amp; belly, chabeta, galunggong baba, pusit kalawang, and tulingan were observed this week.</li> <li>According to vendors, supplies of alumahan remained unstable and not available all the time. Nonetheless, adequate supplies of alumahan were recorded at the monitored retail market this week. This may be attributed to the lifting of CFS for mackarels, herrings, and sardines in Visayan Sea last Feb 15. The prevailing retail price is at Php280.00/kg sourced mainly from Navotas and Malabon fish ports this week.</li> <li>For aquaculture commodities like bangus and tilapia, no changes were noted with the prevailing retail price of Php160.00 &amp; 180.00/kg and Php130.00/kg due to the stable and sufficient supplies recorded among the monitored retail markets this week. Some of the vendors in Trabajo, Tandang Sora, Munoz, Galas, and Kamuning Markets prefer selling large-sized bangus due to higher demand from the buyers. There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan, Pangasinan</li> <li>Tilapia - Batangas, Pampanga</li> <li>Local Galunggong - Navotas &amp; Malabon Fish Ports</li> <li>Alumahan - Navotas &amp; Malabon Fish Port</li> </ol> </li> <li>According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets.</li> <li>Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 MICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.</li> </ol>																									
	<p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Scylla serrata</i> or Alimango - lalake - (Php600.00-700.00/kg) - lowest prevailing price of Php600.00/kg were recorded at Marikina &amp; Pasig Markets where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php700.00/kg was noted at Marikina &amp; Polo Markets where supplies recorded were in good quality.</li> <li><i>Portunus pelagicus</i> or Alimasag - small/medium - (Php250.00/kg &amp; 360.00/kg) - lowest prevailing of Php250.00/kg were recorded at Polo, Malabon and Mandaluyong Markets where supplies were reportedly smaller in size, as compared to the highest prevailing of Php360.00/kg which were recorded at Commonwealth, Marikina, Caloocan Markets where supplies were noted in medium sizes.</li> <li><i>Scomberomorus commerson</i> or Tanigue - whole - (Php380.00-680.00/kg) - lowest prevailing price of Php380.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php680.00/kg were noted from secondary Market (Mandaluyong market) which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices.</li> <li><i>Glossogobius sp.</i> or Bias - (Php320.00/kg &amp; 500.00/kg) - lowest prevailing price of Php320.00/kg were recorded at Pasig Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php500.00/kg was noted at Marikina Market where supplies recorded were in good quality.</li> <li><i>Jagora asperata</i> or Suso Pilipit - (Php100.00-200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php200.00/kg were noted from secondary Market (Marikina market) which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices.</li> <li><i>Lates calcalifer</i> or Apahap (Php300.00-650.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Madaluyong Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php650.00/kg was noted at Farmers Markets where supplies recorded were in good quality and were directly sourced from Lucena, Quezon.</li> </ol>																									
	<p>(-/-) - Price and Volume not available during price monitoring  (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.  NA - Source Area not available during price monitoring</p>
