<b>Remarks/Market Observations:</b> <p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Despite the observance of Lenten season low demand continuous to be observed among the monitored retail markets this week. On the other hand, availability of fresh marine commodities remained adequate in all the monitored markets this week. More specifically, ample supply of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was recorded particularly in Commonwealth and Balintawak markets sourced majority from Navotas Fish Port. Supplies of other variant (i.e., Burot and Balsa) were also noted.</li> <li>Meanwhile, only two (2) markets (i.e., Guadalupe and Polo Public Market) were observed with supply of imported-frozen galunggong lalaki this week sourced from Malabon Fish Port.</li> <li>On the other hand, minimal supply of medium-sized alumahan were recorded this week. In fact, only actual prices were noted in selected wet markets (i.e., Trabajo, Quinta, Tandang Sora, Muñoz, Kamuning, and Navotas retail markets 3,4,5). Nonetheless, sufficient availability of small to medium-sized commodity was observed in Commonwealth and Balintawak markets sourced mainly from Navotas Fish Port. Availability of large-sized commodity was also noted. Presence of other variant (i.e., Hasa-hasa) was also recorded this week.</li> <li>For bangus and tilapia, sufficient supplies were still recorded this week among the monitored retail markets. However, according to the fish vendors in Commonwealth market, minimal supply of tilapia from Pampanga was observed on April 3, 2023. As a result, other fish vendors opted to purchased supply from Batangas in spite the higher wholesale price.</li> <li>Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Navotas Fish Port</li> <li>Imported Galunggong - Malabon Fish Port</li> <li>Alumahan - Navotas Fish Port</li> </ol> </li> </ol> <p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Penaeus monodon</i> or Suggo -medium (Php850.00 &amp; 1180.00/kg)- Both prevailing prices were recorded on Farmers market wherein the lowest recorded price of Php850.00/kg was observed low in quality as it is left over from the previous market days.</li> <li><i>Penaeus monodon</i> or Suggo -Large (Php1000.00 &amp; 1200.00/kg)- Similarly, both prevailing prices were recorded on Farmers market wherein the lowest recorded price of Php1000.00/kg was observed low in quality as it is left over from the previous market days. Meanwhile, highest recorded price of Php. 1200.00/kg was observed new stocks of the commodity.</li> <li><i>Lates calcarifer</i> or Apahap (Php550.00-680.00/kg)- Meanwhile, variations of prices are attributed due to the difference in size of the commodity. Wherein, the lowest recorded price of Php550.00/kg was observed smaller size as compared to the highest recorded price of Php680.00/kg both are recorded in Farmers market.</li> <li><i>Pecten</i> spp. or Scallop (Php650.00-780.00/kg)- Lowest recorded price of Php650.00/kg was observed smaller size of the commodity, hence offer relatively lower. Meanwhile, highest recorded price of the commodity are noted to have larger size, hence offer relatively higher.</li> </ol>																										
			<p>(-) - Price Not Available During Price Monitoring  (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
