| Remarks/Market Observations: | <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Sufficient supplies of fresh marine commodities were still observed among the monitored retail markets this week. Relative to this, ample availability of small to medium-sized local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted on 31 March 2023 particularly in Commonwealth and Balintawak markets sourced mainly from Navotas Fish Port. Due to the continuous sufficient availability of local-fresh galunggong lalaki and its variants, limited availability of medium-sized imported frozen galunggong lalaki was recorded this week. For medium-sized alumahan (<i>Rastrelliger kanagurta</i>), the commodity was recorded among the monitored retail markets this week. Presence of other variant (i.e. Hasa-hasa) was also noted. For medium-sized bangus and tilapia, adequate supplies of the commodities were also recorded this week. Nonetheless, displays of medium-sized bangus remained unavailable at Tandang Sora market this week as vendors prefer selling larger size due to better demand in the said market. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas Fish Port and Lucena (Quezon) Imported-frozen Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port Generally, low demand in the monitored retail markets were continuously observed this week in spite of the upcoming lenten season wherein, it is expected to have an increase in demand in observance of "Holy Week". As a result, vendors are observed selling lower volumes of fishery commodities to ensure that all supplies are sold by the end of the day. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Ponape monodon</i> or Sugo -medium (Php950.00 & 1180.00/kg) - Both prevailing prices were recorded on Farmers market wherein the lowest recorded price of Php950.00/kg was observed low in quality as it is left over from the previous market days. <i>Elops hawallensis</i> or Bidbid (Php100.00-200.00/kg) - Meanwhile, variations of prices are attributed due to the difference in size of the commodity. Wherein, the lowest recorded price of Php100.00/kg was observed smaller size as compared to the highest recorded price of Php200.00/kg. <i>Jagora asperata</i> or Suso pilipit (Php100.00-200.00/kg) - Lowest recorded price of Php100.00/kg was observed in primary market (i.e., Malabon Central market) wherein smaller size of the commodity was noted and usually offers lower price as they directly sourced there supply from the nearby wholesale market. Meanwhile, highest recorded price of the commodity was noted in Marikina market which supplies are noted to have larger size, hence offer relatively higher. <i>Lates calcarifer</i> or Apahap (Php450.00-650.00/kg). Similarly, difference in price are attributed due to the variation of size of the commodity, wherein the lowest recorded price of Php450.00/kg was noted smaller as compared to the highest recorded price of Php650.00/kg both are noted in Farmers market. | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p> | | | | | | | | | | | | | | | | | | | | | | | | | |
