		Female	**110	-	**110	**110	**110	-	China

**Remarks/Market Observations:**

The following observations were gathered from market personnel:

- The inclement weather condition which was caused by the presence of Low-Pressure Area (formerly tropical depression "Amang") in West and Northwest part of the country hampered fishing operations this week. In effect, unloading of fresh marine commodities were minimal at Navotas Fish Port (wholesale) this week.
- For local-fresh galunggong, only one (1) broker unloaded from Northern Palawan with an actual wholesale price of Php163.00/kg this week. That is slightly higher from the previous week as lesser supply were unloaded this week. Nonetheless, supplies remained sufficient to cater the demand of buyers/consumers. Most of the supplies noted were still small to medium-sized. Supplies were mainly sourced from Northern Palawan.
- The prevailing wholesale price of imported-frozen galunggong remained stable at Php130.00/kg this week. According to vendors, fewer supplies were noted at the fish port due to the availability of local galunggong. Most of the supplies were still sourced from China.
- For bangus, the prevailing wholesale price of bangus was at Php135 & 140/kg as supplies remained stable and sufficient at the Navotas Fish Port. Most of the supply of bangus were still sourced from Bulacan.
- Lower prevailing wholesale price were noted for tilapia at Php100.00/kg compared from previous week wherein higher price was noted due to higher demand brought by the observance of Holy week.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
  - Bangus - Bulacan
  - Tilapia - Batangas
  - Local galunggong- Zambales, Batangas, Northern Palawan, Quezon Province, Mindoro
  - Alumahan- NA
  - Imported galunggong - China
- Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

*Note: Wholesale price data is as of April 9 & 10, 2023, as price data from PFDA was not provided within the internal cut off of the covering period of this report.*

(-) - Price and Volume not available during price monitoring  
 (\*\*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.  
 NA- Source Area not available during price monitoring
