Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> According to the fish vendors, abundant supplies of fresh marine commodities were observed at the wholesale markets this week. On the other hand, fish vendors particularly in Commonwealth and Balintawak markets were selling low volume of fish as the demand remained low at the said markets. In addition, some of the displayed fishes were observed low in quality in terms of freshness as it is leftover from the previous market days. As a result fish vendors were forced to sell the commodities in a bargain price to gain back their capital. Likewise, ample display of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was recorded among the monitored retail markets this week sourced mainly from Navotas Fish Port. Meanwhile, no supply of imported-frozen galunggong was observed. For medium-sized alumahan (<i>Rastrelliger kanagurta</i>), sufficient supply of commodity was observed at the monitored markets this week. Display of other variant (i.e., hasa-hasa) was also noted. Sufficient supply of bangus and tilapia were also recorded at the monitored retail markets throughout the week. Meanwhile, minimal decreased in price of medium-sized bangus was recorded in Commonwealth market (from Php160.00/kg to 150.00/kg on 20 April 2023). This might be attributed due to the ample supply of medium-sized commodity sourced from Batangas. Meanwhile, for medium-sized tilapia no major changes in price was observed at the monitored markets this week. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Navotas Fish Port Imported-frozen Galunggong - Navotas Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Priacanthus macracanthus</i> or Dilat -medium (Php300.00 - 400.00/kg)- Lowest prevailing price of Php300.00/kg was recorded in Guadalupe market which supplies are observed smaller in size as compared to the highest recorded price of Php400.00/kg noted in Mandaluyong market. <i>Siganus</i> spp. or Bataway/Danggit (Php300.00-450.00/kg)- Similarly, difference in price are attributed due to the variation of size of the commodity, wherein the lowest recorded price of Php300.00/kg recorded in Guadalupe market was noted smaller as compared to the highest recorded price of Php450.00/kg noted in Marikina market. 																							
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
