Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Abundant supply of fresh marine commodities were observed among the monitored retail markets this week. This may be due to the following: a.) peak fishing season in the Philippines which usually begins in March, b.) and continuing fair weather condition in most parts of the country. For local-fresh galunggong, the prevailing retail price remained stable at Php200.00/kg this week. This may be attributed to the abundant supplies in all monitored retail markets and its been stable for the past few weeks. Most of the supply were still sourced from Palawan and Zambales. Supplies recorded were still mostly small to medium-sized (12-22pcs/kgs). Also, other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were recorded in some of the monitored retail markets this week. The abundant supplies of local-fresh galunggong led to the decreased in the demand for imported-frozen galunggong. As a result, only two (2) out of the eighteen monitored retail markets have available supply for imported galunggong. According to vendors, they stop getting supplies for imported galunggong as consumers/buyers prefer buying the local variant. The prevailing retail price of imported-frozen galunggong is at Php140-240/kg this week. Other imported-frozen commodities like pompano, salmon mackarel, chabeta, pusit and tulingan continues to be observed in the market. Sufficient volume of supply were observed for alumahan this week. The prevailing retail price is at Php280.00/kg this week. All sizes were available and were mainly sourced from Malabon and Navotas Fish Ports. The prevailing retail price of bangus is at Php160.00/kg this week due to the sufficient and stable supplies at the monitored retail markets. Most of the supplies were still sourced from Bulacan and Pangasinan. Higher demand from buyers for large-sized bangus was observed in Galas, Kamuning, Muñoz, Trabajo, and Tandang Sora markets. For tilapia, the prevailing retail price is at Php130.00/kg this week. According to fish vendors, lesser supply of tilapia sourced from Pampanga were noted this week. As a result, most of the supplies were sourced from Batangas. In Balintawak market, there is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Ports d. Alumahan - Navotas & Malabon Fish Port According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets. 																									
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p>																									
	<p>1. <i>Peneus monodon</i> or Sugpo-medium - (Php800-1000/kg) - both lowest and highest prevailing price were recorded at Polo Public Market. The difference in the price may be due to the quality of the product wherein the lowest price were mostly old stock while the highest price were new stocks.</p>																									
	<p>2. <i>Sardinella fimbriata</i> ir Tunsoy - (Php80-250/kg) - lowest prevailing price of Php80.00/kg were recorded at Navotas Market where abundant supplies were recorded resulting to a low price. Highest prevailing price of Php250.00/kg were noted from secondary Market (Mandaluyong market) which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices.</p>																									
	<p>3. <i>Carangoides armatus</i> or Talakitok - (Php80-250/kg) - both lowest and highest prevailing price were recorded at Polo Public Market. The difference in the price may be due to the quality of the product wherein the lowest price were mostly old stock while the highest price were new stocks.</p>																									
	<p>4. <i>Decapterus macrostoma</i> or GG imported - medium - (Php140-240/kg)- lowest prevailing price of Php140.00/kg were recorded at Polo Market where supplies were sourced directly from Navotas Fish Port, hence, the lower price. Highest prevailing price of Php240.00/kg were noted from secondary Market (Guadalupe market) which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices.</p>																									
	<p>5. <i>Mullus surmuletus</i> or Salmonete - (Php300.00/kg & 440.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Guadalupe Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php440.00/kg was noted at Marikina Market where supplies recorded were in good quality.</p>																									
	<p>6. <i>Pseudorhombus sp.</i> or Dapa/Tampal - (Php300.00 & 400.00/kg) -lowest prevailing price of Php300.00/kg were recorded at Pasig Market where abundant supplies were recorded resulting to a low price. Highest prevailing price of Php400.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price.</p>																									
	<p>7. <i>Stolephorus indicus</i> or Dilis - (Php160.00 & 380.00/kg) -lowest prevailing price of Php160.00/kg were recorded at Polo Market where supplies were sourced directly from Navotas Fish Port, hence, the lower price. Highest prevailing price of Php280.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price.</p>																									
	<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p>																									
<p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
