Remarks/Market Observations:			<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal display of fresh marine commodities were observed among the monitored markets specifically on 8 and 9 of May this week. This might have been caused by the occurrence of full moon on 6 May 2023. Relatively, according to the fish vendors higher prices of the said commodities was recorded at the wholesale level. Alongside, lower demand in the monitored wet markets are continuously noted, as a result some displayed fishery commodities were observed low quality in terms of freshness as it is the left overs from the previous market days. In relation, some vendors are force to sell their commodities in a bargain price to gain back their capital. Nonetheless, increased in supplies was reported on 12 May 2023 (Friday). Despite the minimal availability of marine commodities on May 8 and 9, adequate displays of local-fresh galunggong lalaki (<i>Decapteus macrosoma</i>), was recorded in the monitored markets throughout the week. Presence of other variant (i.e., balsa) <i>Decapteus macarellus</i> was also noted. Relatively, minimal displays of imported-frozen galunggong lalaki was recorded this week. In fact, only three markets (i.e., Muñoz, Balintawak, and Polo Public market) was noted to have supplies of the commodity sourced mainly from Navotas Fish Port. Similarly, minimal supply of medium-sized alumahan was also noted this week. However, supplies of large-sized commodity remained adequate sourced from Lucena, Malabon Fish Port, and Navotas Fish Port. Sufficient supply of aquaculture commodities (i.e., bangus and tilapia) continued to be evident among the monitored wet markets this week. Meanwhile, minimal display of medium-sized bangus was still observed as large-sized (1-2pcs/kg) remained to be the majority of the supplies sourced from Pangasinan and Bulacan. On the other hand, ample supply of tilapia were still noted dominantly sourced from Batangas. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas Fish Port Imported-frozen Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Caesio cuning</i> or Dalagang bukid (Lapad)- (Php200.00 & 400.00/kg)- lowest prevailing price of Php200.00/kg were recorded both in Malabon Central Market and Polo Public Market, wherein supplies observed as smaller as compared to the supplies noted in Marikina and Tandang Sora Market which have recorded the highest price of Php400.00/kg. <i>Glossogobius celebius</i> or Biya (Php200.00-420.00/kg)- Lowest prevailing price of Php200.00/kg was noted in Polo Public Market, wherein low quality in terms of freshness was noted in the supplies as compared to the supplies noted in Marikina Marikina which noted to be new stocks and have premium quality, hence the difference in price. <i>Jagora asperata</i> or Suso pilipit (Php100.00-200.00/kg)- Lowest recorded price of Php100.00/kg was observed in primary market (i.e., Malabon Central market) wherein smaller size of the commodity was noted and usually offers lower price as they directly sourced there supply from the nearby wholesale market. Meanwhile, highest recorded price of the commodity was noted in Marikina market which supplies are noted to have larger size, hence offer relatively higher. <i>Sillago sihama</i> or Asohos (Php200.00-360.00/kg)-Similarly, difference in price are attributed due to the variation of size of the commodity, wherein the lowest recorded price of Php200.00/kg was noted smaller as compared to the highest recorded price of Php360.00/kg. 																						
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
