Remarks/Market Observations:			<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Overall, sufficient supplies of fresh marine commodities were observed among the monitored wet markets this week. More specifically, ample availability of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted sourced mainly from Navotas Fish Port. Supply of other variant (i.e., Balsa and Burot) were also recorded. Also, ample supplies of gulyasan (<i>Katsuwonus pelamis</i>) was noted. Nonetheless, fish vendors particularly in Galas and Kamuning markets purchased small volume and variety of fish to cope with the low demand in the markets. Relatively, no supplies of imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) was recorded this week as supply of local-fresh galunggong remained adequate at the markets. Sufficient supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was also recorded this week. Supplies of large-sized alumahan was also observed sourced mainly from Malabon Fish Port. Still, sufficient supplies of aquaculture commodities was observed in the monitored markets this week. More specifically, some supplies of tilapia from Batangas specifically in Commonwealth market were large-sized (2pcs/1.5kg) at Php120.00/kg. Meanwhile, minimal supplies of tilapia from Pampanga was still recorded. For bangus, limited supplies of medium-sized bangus was noted. Nonetheless, adequate supplies of large-sized bangus was recorded sourced from Bulacan and Pangasinan. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Navotas Fish Port Imported-frozen Galunggong -Not available <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Glossogobius celebius</i> or Biya - (Php300.00 - 420.00/kg)- lowest prevailing price of Php300.00/kg were recorded in Polo Public Market, wherein supplies observed are smaller as compared to the supplies noted in Marikina Market which have recorded the highest price of Php420.00/kg. <i>Selar</i> spp. (Php180.00-340.00/kg)- Lowest prevailing price of Php180.00/kg was noted in Pasig Market, wherein low quality in terms of freshness was noted in the supplies as compared to the supplies noted in Marikina market which noted to be new stocks and have premium quality, hence the difference in price. <i>Stolephorus commersonnii</i> (Php120.00-300.00/kg)- Lowest recorded price of Php120.00/kg was observed in primary market (i.e., Pasig market) wherein smaller size of the commodity was noted and usually offers lower price as they directly sourced there supply from the nearby wholesale market. Meanwhile, highest recorded price of the commodity was noted in secondary market (i.e., Guadalupe market) which supplies are noted to have larger size and sourced only from Farmers market wholesale, hence offer relatively higher. 																												
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
