		Male	130	120	120 & 130	130	120	-	China
		Female	-	-	-	-	-	-	NA

Remarks/Market Observations:

The following observations were gathered from market personnel:

- Minimal but sufficient displays of fresh marine commodities (i.e., balsa, tambakol, tamban, bisugo, dalagang bukid, matambaka, tulingan, espada, salay ginto, etc.) were recorded at Navotas Fish Port 3, 4, & 5 this week. This could be the result of the hampered fishing operations brought by the Southwest monsoon and Low-Pressure Area (LPA) in the east of Eastern Visayas.
- Ample supplies for medium-sized local-fresh galunggong were unloaded at the Navotas Fish Port (wholesale) this week despite heavy rain weather condition this week. The prevailing wholesale price remained at Php140.00/kg this week. There were other local galunggong variants like "Balsa" (*Decapterus macarellus*), "Burot" (*Decapterus kurroides*) and "Babae" (*Decapterus russelli*) were also recorded.
- There is still low demand for imported-frozen galunggong due to adequate supply of local-fresh galunggong which is more preferred by consumers. The prevailing wholesale price of the commodity was at Php120.00/kg and Php130.00/kg imported from China.
- Same prevailing wholesale prices were recorded for aquaculture commodities (i.e., bangus and tilapia) at Php130.00/kg and Php100.00/kg this week due to the sufficient and stable supplies at the fish port. Supplies were still sourced mainly from Bulacan and Batangas, respectively.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local galunggong- Zambales, Northern Palawan
 - Alumahan- NA
 - Imported galunggong - China
- Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

Note: Wholesale price data is as of June 3 & 8, 2023, as price data from PFDA was not provided within the internal cut off of

(-) - Price and Volume not available during price monitoring

(**) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA- Source Area not available during price monitoring
