Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> The rainy weather condition this past few weeks contributed to lesser supplies of fresh marine commodities among the monitored retail markets this week. Also, the occurrence of full moon last 3 July 2023 might contributed to the decrease in supply this week. For local-fresh galunggong, ample volume of supplies were noted among the monitored retail markets this week. Moreover, all monitored retail markets have an available supply with most of the supplies recorded were small to medium sized. Most of the supplies were sourced from Navotas and Malabon Fish Ports. This resulted to a stable prevailing retail price at Php200.00/kg this week. There were also other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurraides</i>) present in some of the monitored retail markets this week. Limited supply of imported-frozen galunggong were noted this week with only one (1) monitored retail market (Polo Public Market) having available supply. The prevailing retail price of imported-frozen galunggong is at Php150.00/kg this week. Most of the buyers still prefer local galunggong than imported. There were also other imported-frozen commodities like pampano, salmon mackarel, pusit kalawang, and tulingan noted in the market. Sufficient volume of supplies were noted for medium-sized alumahan this week. According to vendors, all sizes were available and were mainly sourced from Navotas and Malabon Fish Ports. The prevailing retail price of medium-sized alumahan is at Php300 & 320/kg this week. For bangus, the prevailing retail price remained at Php160.00/kg this week due to the sufficient and stable supplies among the monitored retail markets. Supplies were still mainly sourced from Bulacan and Pangasinan. There is still a higher demand for larger bangus in some of the monitored retail markets (Trabajo, Quinta, Munoz, Galas, and Kamuning markets) The prevailing retail price of tilapia is at an average of Php135.00/kg this week. Most of the supplies noted among the monitored retail markets were still sourced from Batangas as higher wholesale price were noted for tilapia sourced from Pampanga. According to vendors, consumers still prefer tilapia from Batangas than from Pampanga. As reported by region 3, the increase in the cost of feed mill resulted to fish farmers of tilapia from Pampanga opting to stop or reduce their operations until their profit margins are acceptable for them. There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Ports d. Alumahan - Navotas & Malabon Fish Port 8. According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets. 																									
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Katsuwonus pelamis</i> or Gulyasan - (Php150 & 280/kg) - lowest prevailing price of Php150.00/kg were recorded at Malabon Market where supplies were sourced directly from Malabon Fish Port, hence, the lower price. Highest prevailing price of Php280.00/kg was noted at Guadalupe Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price. <i>Sardinella gibosa</i> or Tamban - (Php100.00 & 200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Quinta Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php200.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from Lucena, Quezon. <i>Leiopotherapon plumbeus</i> or Ayungin - (Php600-800/kg) - both the lowest and highest prevailing retail price were recorded in Marikina Market. The difference in the price were due to the quality of the commodity, wherein the supply of lowest prevailing price of 600.00/kg was stocks from previous market days and the highest prevailing price of Php800.00/kg was good in quality. <i>Mullus surmuletus</i> or Salmonete - (Php300.00 & 440.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Guadalupe Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php440.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from Lucena, Quezon. <i>Pagellus centrodontus</i> or Bakoko - (Php300.00/kg & 400.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Malabon Market where supplies were sourced directly from Malabon Fish Port, hence, the lower price. Highest prevailing price of Php400.00/kg was noted at Mandaluyong Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price. 																									
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
