Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, sufficient supplies of fresh marine commodities were observed among the monitored retail markets this week. Relatively, adequate availability of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted sourced mainly from Navotas Fish Port. Meanwhile, availability of imported-frozen galunggong lalaki remained available in some monitored markets sourced from Lucena, Obando, and Malabon Fish Port. Available supply of medium-sized alumahan was also recorded this week derived from Lucena, Navotas, and Malabon Fish Port. Presence of other variant (i.e., Hasa-hasa) was also observed. Sufficient supplies of aquaculture commodities (i.e., bangus and tilapia) continued to be evident among the monitored markets this week. However, difference in price of bangus coming from Bulacan and Pangasinan was still observed. Nonetheless, stable prices of the commodities were still noted. Top fishery commodities in the seven (7) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Pangasinan Tilapia - Batangas Local Galunggong - Navotas Fish Port Imported-frozen Galunggong - Obando, Malabon and Navotas Fish Port
