**Remarks/Market Observations:**

The following observations were gathered from market personnel and vendors this week:

- Limited unloading of fresh marine fishery commodities were noted in all monitored retail market this week. This may be due to the constant rainy weather conditions brought by the Super Typhoon "Egay" which hampered fishing operations throughout the country.
- Relative to this, minimal supplies of medium-sized local-fresh galunggong laki (*Decapterus macrosomea*) were recorded among the monitored retail markets. Most of the supplies were sourced from Navotas and Malabon Fish Ports. Due to the minimal supply, there is an increase in the prevailing retail price at Php240.00/kg this week. Also, other local galunggong variants like "balsa" (*Decapterus macarellus*), "babae" (*Decapterus russelli*) and "burot" (*Decapterus kurroides*) were present in some of the monitored retail markets this week.
- There is slight increase in the supply of imported-frozen galunggong especially in Balintawak, Muñoz, Galas, Guadalupe, and Polo Markets. According to vendors, some of them opted to buy imported-frozen galunggong due to its cheaper price than local-fresh galunggong which makes its easier to sell. The prevailing retail price of imported-frozen galunggong increased at Php200.00/kg this week due to higher demand from the consuming public. Also, other imported-frozen commodities like pampango, salmon mackarel, pusit kalawang, and tulingan noted in the market.
- For alumahan, minimal but sufficient supply was also noted in the monitored retail markets this week. Most of the size available and were mainly sourced from Navotas and Malabon Fish Ports. The prevailing retail price of medium-sized alumahan is at Php300/kg this week.
- The prevailing retail price of bangus is at Php150, 160, & 200/kg this week. The difference in the price may be due to the source area of the commodity. Whereas, higher price is observed for bangus sourced from Pangasinan due to its premium quality. Nonetheless, sufficient and stable supplies were observed among the monitored retail markets this week. Supplies were still mainly sourced from Bulacan and Pangasinan.
- For tilapia, the prevailing retail price of tilapia was noted at Php140.00/kg this week. According to vendors, most of the supplies noted were still sourced from Batangas despite the reported fish kill in the said source area. Most of the buyer still prefer Tilapia from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
  - Bangus - Bulacan, Pangasinan
  - Tilapia - Batangas, Pampanga
  - Local Galunggong - Navotas & Malabon Fish Ports
  - Alumahan - Navotas & Malabon Fish Port
- According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets.

**Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.**

- Elops hawaiiensis* or Bidbid - (Php100 & 200/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market where supplies were sourced directly from Malabon Fish Port, hence, the lower price. Highest prevailing price of Php200.00/kg was noted at Polo Market where supplies recorded were in good quality, hence, the higher price.
- Glossogobius giuris* or Bias - (Php200.00 & 420.00/kg) - lowest prevailing price of Php200.00/kg were recorded at Polo Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php420.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from Lucena, Quezon.
- Gobioptherus lacustris* or Dulong - (Php100.00/kg & 320.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Polo Market where supplies were sourced directly from Malabon Fish Port, hence, the lower price. Highest prevailing price of Php320.00/kg was noted at Pasig Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price.
- Leiopotherapon plumbeus* or Ayungin - (Php600-800/kg) - both the lowest and highest prevailing retail price were recorded in Marikina Market. The difference in the price were due to the quality of the commodity, wherein the supply of lowest prevailing price of 600.00/kg was stocks from previous market days and the highest prevailing price of Php800.00/kg was good in quality.
- Mullus surmuletus* or Salmonete - (Php300.00 & 440.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Guadalupe Market where supplies recorded were not in good quality (supplies from previous days). Highest prevailing price of Php440.00/kg was noted at Marikina Market where supplies recorded were in good quality and sourced from Lucena, Quezon.

(- ) - Price and Volume not available during price monitoring  
 (\* ) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.  
 NA - Source Area not available during price monitoring
