Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> More supplies of fresh marine commodities were noted in all monitored retail markets this week due to favorable weather conditions resulting to resumption of fishing operations . According to vendors, higher volume of supplies were reported for medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) among the monitored retail markets. This resulted to a decreased in the price at Php200.00/kg compared from Php240.00/kg last week. There were also other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) observed in some of the monitored retail markets this week. For imported-frozen galunggong, lesser supply were noted in the monitored retail markets this week. More specifically, only Trabajo, Kamuning, Pasig and Polo Public Markets have an available supply. According to vendors, the stable and sufficient supplies of local galunggong urge them not to buy imported galunggong. The prevailing retail price of imported-frozen galunggong decreased at Php150 & 200/kg this week. Other imported-frozen commodities like pampano, salmon mackarel, salmon head and belly, pusit kalawang, and tulingan were noted in the market. Adequate supplies of medium-sized alumahan was observed in some of the monitored retail markets this week. Most of the supplies were sourced mainly from Lucena, Navotas, and Malabon Fish Ports. The prevailing retail price of medium-sized alumahan is at Php300/kg this week. Sufficient and stable supplies were noted in all monitored retail markets this week. The prevailing retail price increased at Php180.00/kg this week as most of the reported supplies were sourced from Pangasinan. Higher price were noted for bangus sourced from Pangasinan due to its premium quality. The prevailing retail price of tilapia was noted at Php130 & 140/kg this week. Most of the supplies were still sourced from Batangas. However, for Muñoz and Commonwealth markets, most of the supplies were sourced from Pampanga as higher wholesale price were reported from Batangas. There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas & Malabon Fish Ports Alumahan - Navotas & Malabon Fish Port According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets.
