Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> More supplies of fresh marine commodities were reported by the fish vendors among the monitored retail markets this week. In fact, abundant supply of local fresh galunggong lakasi (<i>Decapterus macrosoma</i>) was recorded chiefly sourced from Navotas Fish Port. Meanwhile, only two (2) stalls in Balintawak market were selling the commodity on 15 August 2023 (Tuesday) as vendors prefer selling other variant (i.e., Balsa) <i>Decapterus macarellus</i>, due to its cheaper wholesale price. Minimal availability of imported-frozen galunggong lakasi (<i>Decapterus macrosoma</i>) was also observed this week. In fact, only Quinta market and Polo Public market have supplies of the commodity sourced from Obando and Navotas Fish Port. Adequate volume of supplies of alumahan was also observed this week in the monitored retail markets. However, large-sized remained the majority of the supply obtained from Farmers market (wholesale), Lucena (Quezon), Malabon and Navotas Fish Port. Sufficient supplies of bangus and tilapia were also noted this week. In fact, lower prevailing retail price for medium-sized bangus was recorded at Commonwealth market as supplies observed were smaller 4-5pcs/kg sourced from Bulacan. On the other hand, steady prevailing price of tilapia was noted this week. Nonetheless, majority of the vendors in the said market was noted selling tilapia Pampanga due to its cheaper wholesale price as compared to the supply coming from Batangas. Major source areas of the top fishery commodities in the monitored markets are as follows: <ul style="list-style-type: none"> b. Retail <ul style="list-style-type: none"> b.1. Bangus - Bulacan b.2. Tilapia - Batangas b.3. Local Galunggong - Malabon and Navotas Fish Port b.4. Imported Galunggong - Navotas Fish Port and Obando b.5. Alumahan - Malabon and Navotas Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Glossogobius celebius</i> or Biya - medium (Php200.00 & 420.00/kg) - lowest prevailing price of Php. 200.00/kg was recorded in Polo Public Market wherein supplies observed are low in quality (in terms of freshness) hence offer cheaper as compared to the supply recorded in Marikina Public Market which are reported to have better quality in terms of freshness sourced from Lucena. <i>Selar boops</i> or Matambaka - (Php150.00-300.00/kg) - Lowest prevailing price of Php150.00/kg was recorded in Navotas Fish Port retail markets wherein supply are sourced directly from wholesale markets, hence offer in a lower price. Meanwhile, highest recorded price of Php300.00/kg was noted in secondary market (i.e., Trabajo market) which supply are commonly sourced in primary market (i.e., Farmers market). Hence, offer in a higher price. <i>Selar</i> spp. or Matambaka - (Php120.00-360.00/kg) - Similarly, lowest prevailing price of Php120.00/kg was noted in primary market (i.e., Malabon Central Market) wherein supply are sourced directly from Malabon Fish Port. Hence, offer in a lower price. Highest recorded price of Php360.00/kg was noted in secondary market (i.e., Mandaluyong market) which supply are 																															
	(-) - Price Not Available During Price Monitoring																															
	(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.																															
	NA - Source Area not available during price monitoring																															
Note: Temporary suspension of price monitoring activity in Pasig market due to the participation of the designated enumerator in National Workshop on Post-Harvest Development Plan on August 14-18, 2023.
