<b>Remarks/Market Observations:</b> <b>The following observations were gathered from market personnel and vendors this week:</b> 1. Minimal but sufficient supplies of marine fishery commodities were observed among the monitored markets this week. More specifically, for medium-sized local-fresh galunggong lalaki ( <i>Decapterus macrosoma</i> ), supplies remained available in most of the monitored markets. 2. Meanwhile, for medium-sized imported-frozen galunggong lalaki, supplies were observed in some of the monitored markets like Commonwealth market this week. Fish vendors tend to purchase imported galunggong as a substitute commodity especially when there is a minimal of supply of local galunggong in the market. 3. For alumahan, limited availability of medium-sized alumahan was still observed among the monitored retail markets this week. However, there continues to have supply of other variant (i.e., Hasa-hasa) sourced mainly from Malabon Fish Port and Lucena (Quezon). 4. Lastly, steady and adequate supplies of bangus and tilapia were observed among the monitored retail markets this week. The prevailing prices of the medium-sized bangus and tilapia were stable. Nonetheless, per interview with fish vendors there is an increase in the price of bangus from the source areas. 5. Major source areas of the top fishery commodities in the monitored markets are as follows: b. Retail b.1. Bangus - Bulacan b.2. Tilapia - Batangas b.3. Local Galunggong - Navotas Fish Port b.4. Imported Galunggong - Navotas Fish Port b.5. Alumahan - Navotas Fish Port																										
			<b>General Observations:</b> <b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b> 1. <i>Lethrinus</i> spp. or Bitilya -(Php300.00 - 480.00/kg)- both prevailing prices were recorded in Guadalupe Market wherein the lowest recorded price of Php300.00 /kg was noted smaller in size as compared to the highest recorded price of Php480.00/kg, hence the variation in price.																							
<p>(-) - Price Not Available During Price Monitoring            (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
