Remarks/Market Observations: The following observations were gathered from market personnel and vendors this week: 1. Minimal supply of fresh marine commodities were noted among the monitored retail markets this week. As a result, higher retail prices of the marine commodities were recorded. More specifically, minimal increment in the price of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was observed in Commonwealth market sourced from Malabon and Navotas Fish Port. This might be due to the rainy weather condition in most part of the country brought by the Typhoon "GORING" (SAOLA) noted in the East of Aparri, Cagayan and East Northeast of Tuguegarao City, Cagayan (18.4°N, 123.7°E). Southwest Monsoon affecting Central and Southern Luzon, Visayas, and Mindanao. Alongside, low demand in the monitored retail markets remained observed this week. 2. Nonetheless, limited availability of imported frozen galunggong lalaki (<i>Decapterus macrosoma</i>) was observed this week. 3. For medium-sized alumahan (<i>Rastrelliger kanagurta</i>), limited volume of supplies were also noted among the monitored retail markets this week. Other variant of the alumahan like "hasa-hasa" was also recorded. 4. Majority of the available supplies of bangus in the monitored retail markets were large-sized comprised of 1-2pcs/kg. Nevertheless, supplies of medium-sized bangus remained steady and available for the consuming public. 5. Lastly, for medium-sized tilapia, supplies continued to be adequate in the monitored retail markets this week. Supplies were chiefly sourced from Batangas. 6. Major source areas of the top fishery commodities in the monitored markets are as follows: b. Retail b.1. Bangus - Bulacan b.2. Tilapia - Batangas b.3. Local Galunggong - Navotas Fish Port b.4. Imported Galunggong - Navotas Fish Port, Farmers market (wholesale), Obando b.5. Alumahan - Navotas Fish Port																										
			General Observations: Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. 1. <i>Mugil cephalus</i> or Banak -(Php200.00 & 300.00/kg)- lowest prevailing price of Php. 200.00/kg was recorded in Malabon Central Market wherein supplies observed were noted small size of the commodity hence offer cheaper as compared to the supply recorded in Pasig Mega Market which are reported to have large size sourced from Navotas Fish Port.																							
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators Note: No price monitoring report was generated on 1 September 2023 due to work suspension per Memorandum Circular No. 30 s. 2023.</p>
