<b>Remarks/Market Observations:</b> <b>The following observations were gathered from market personnel and vendors this week:</b> 1. Sufficient supplies of fresh marine commodities were still recorded among the monitored retail markets this week. More specifically, adequate display of local fresh galunggong lalaki ( <i>Decapterus macrosoma</i> ) was noted sourced mainly from Navotas and Malabon Fish Port. Meanwhile, abundant volume of supply of other variant (i.e., balsa and burot) were observed. Even so, fish vendors particularly in Commonwealth market were noted selling imported-frozen galunggong lalaki due to its lower wholesale price making it easier for them to sell. 2. Supply of medium-sized alumahan ( <i>Rastrelliger kanagurta</i> ) was also recorded in most of the monitored retail wet markets this week. Presence of other variant i.e., Hasa-hasa ( <i>Rastrelliger brachysoma</i> ) was observed. 3. Adequate availability of bangus and tilapia were still noted among the monitored retail markets this week. Nonetheless, it was reported that there is an increased in the price of large-size bangus from Pangasinan observed in selected markets this week particularly in Commonwealth, Mega-Q, Balintawak markets wherein vendors adjusted their price due to the higher wholesale price of the commodity. On the other hand, majority of the supply of tilapia in Commonwealth, Muñoz, and Galas markets were sourced from Pampanga as it is more preferred by the vendors due to its lower wholesale price. 4. Major source areas of the top fishery commodities in the monitored markets are as follows: a. Retail a.1. Bangus - Bulacan a.2. Tilapia - Batangas a.3. Local Galunggong - Navotas Fish Port a.4. Imported Galunggong - Navotas Fish Port a.5. Alumahan - Navotas Fish Port
