Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Minimal display of fresh marine commodities was noted among the monitored retail markets due to the presence of Typhoon "Jenny" and the Southwest monsoon in most parts of the country continued to bring rainy and cold weather conditions (i.e., partly cloudy to cloudy skies with isolated rain showers or thunderstorms) this week.</li> <li>For medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), minimal volume in supplies of the commodity was also observed in monitored retail markets this week. The prevailing retail price was at Php200, 240, 280/kg. Most of the supplies were sourced from Malabon and Navotas Fish Ports. Other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were noted in some of the monitored retail markets this week.</li> <li>More available display of imported-frozen galunggong were reported this week. This may be attributed to the minimal supplies of local-fresh galunggong this week. Some of the vendors still prefer selling local-fresh galunggong than imported due to higher demand. The prevailing retail price of imported-frozen galunggong is at Php260.00/kg this week. There are other imported-frozen commodities like pampano, salmon mackarel, salmon head &amp; belly, pusit kalawang, and tulingan also noted in the market.</li> <li>According to vendors, lesser volume of supplies for medium-sized alumahan were noted among the monitored retail markets this week. As a result, higher prevailing retail price were observed this week at Php360.00/kg. Supplies were mostly sourced from Navotas and Malabon Fish Ports.</li> <li>The prevailing retail price of bangus remained at a relatively high price of Php180.00/kg this week. According to vendors, high wholesale price of bangus sourced from Pangasinan were still noted. There are still some vendors in Tandang Sora, Galas, Kamuning, Trabajo and Muñoz Markets which prefer selling larger size of bangus due to higher demand from the buyers.</li> <li>According to vendors, same prevailing retail price of Php130.00/kg were still recorded due to the sufficient and stable supply in all monitored retail markets this week. Most of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan, Pangasinan</li> <li>Tilapia - Batangas, Pampanga</li> <li>Local Galunggong - Navotas &amp; Malabon Fish Ports</li> <li>Alumahan - Navotas &amp; Malabon Fish Ports</li> </ol> </li> </ol>
