Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Sufficient unloading of fresh marine commodities were noted among the monitored retail markets this week. This may be attributed to the good weather condition compared from previous weeks. Consequently, adequate volume of supplies were noted for medium-sized local-fresh galunggong (<i>Decapterus macrosonia</i>) in all monitored retail markets this week. The prevailing retail price is at Php200 & 280/kg this week with most of the supplies sourced from Navotas and Malabon Fish Ports. There were other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) present in some of the monitored retail markets this week. Only three (3) monitored retail markets (Tandang-Sora, Muñoz, and Polo Markets) have supply of imported-frozen galunggong this week. This may be attributed to the sufficient supply of local-fresh galunggong which is more preferred by buyers. The prevailing retail price of imported-frozen galunggong is at Php150-240/kg this week. Other imported-frozen commodities like pampano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan were also noted in the market. For medium-sized alumahan, adequate supplies was still observed in the monitored retail markets this week. This resulted to a stable prevailing retail price of Php300/kg this week. Most of the supplies were sourced from Navotas and Malabon Fish Ports. Higher prevailing retail price of bangus were noted at the monitored retail markets this week. According to vendors, most of the supplies this week were sourced from Pangasinan which resulted to higher retail price and is at Php180.00/kg. Some of the vendors in Galas, Tandang Sora, Muñoz and Quinta Markets prefer selling larger size of bangus due to higher demand from the buyers. No changes were noted in the prevailing retail price of tilapia at Php140.00/kg this week. According to vendors, this may be attributed to the sufficient and stable supply in all monitored retail markets this week. Some of the buyer still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b.
