**Remarks/Market Observations:**

**The following observations were gathered from market personnel and vendors this week:**

- Adequate supplies of fresh marine commodities were noted among the monitored retail markets this week. According to vendors, this may be attributed to the good weather condition.
- For local-fresh galunggong, sufficient volume of supplies were observed. The prevailing retail prices are at Php200, 240 & 280/kg this week. The difference in the price may be attributed to the varying source areas of the commodity. Most of the supplies were sourced from Navotas and Malabon Fish Ports. Other local galunggong variants like "balsa" (*Decapterus macarellus*), "babae" (*Decapterus russelli*) and "burot" (*Decapterus kurroides*) were also present in some of the monitored retail markets this week.
- There are still some vendors who sell imported-frozen galunggong. More specifically, only four (4) monitored retail markets (Quinta, Commonwealth Balintawak and Muñoz) were observed with supply of imported-frozen galunggong this week. According to vendors, most of the buyers still prefer local than imported. The prevailing retail price of imported-frozen galunggong is at Php240 & 260/kg this week. There were other imported-frozen commodities like pompano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan noted in the market.
- Ample supplies was observed for medium-sized alumahan in the monitored retail markets this week. The prevailing retail price is at Php280/kg this week with supplies mainly sourced from Navotas and Malabon Fish Ports.
- The prevailing retail price of bangus remained at a relatively high retail price of Php180.00/kg. According to vendors, high wholesale price were observed for bangus sourced in Pangasinan resulting to higher retail prices. There are some vendors in Trabajo, Tandang Sora, Muñoz, Galas and Kamuning Markets prefer selling larger size of bangus due to higher demand from the buyers.
- Increase in the prevailing retail price of tilapia at Php160.00/kg were observed this week. According to vendors, majority of the supplies in the retail markets were sourced from Batangas. Most of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
  - Bangus - Bulacan, Pangasinan
  - Tilapia - Batangas, Pampanga
  - Local Galunggong - Navotas & Malabon Fish Ports
  - Alumahan - Navotas & Malabon Fish Port

**Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.**
