Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Minimal volume of fresh marine commodities were noted among the monitored markets this week. This could be due to smaller volume of supplies purchased and being sold by vendors as demand from the buying public continued to be modest. Also, some of the displayed fishes were remaining stocks from previous market days. Moreover, it has been reported that fish vendors usually acquire larger volumes of supplies to be sold during weekends as influx of buyers in the market is higher than regular weekdays.</li> <li>More specifically, for medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), supplies from Malabon and Navotas Fish Ports remained to be sufficient to cater the demand of the buying public.</li> <li>Despite the continuous and ample availability of medium-sized local-fresh galunggong lalaki, supplies of medium-sized imported-frozen galunggong lalaki were still observed in some of the monitored markets like Trabajo, Quinta, Commonwealth, Tandang Sora, Balintawak, Muñoz, Galas, and Navotas retail markets this week. This might be due to the existing demand from the buyer especially with food stall "Carinderia" who prefer imported galunggong due to bigger size at affordable price as compared with local-fresh galunggong lalaki.</li> <li>For medium-sized alumahan, supplies was recorded in some of the monitored markets this week. Also, presence of hasa-hasa "<i>Rastrelliger brachysoma</i>" was also reported in some of the monitored markets.</li> <li>Sufficient supplies of medium-sized bangus and tilapia were observed at the monitored markets this week. However, increment in the wholesale price of bangus was reported by the fish vendors. Nonetheless, some of the fish vendors prefer purchasing tilapia from Pampanga due to lower wholesale price as compared with tilapia from Batangas.</li> <li>Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Navotas Fish Port</li> <li>Imported Galunggong - Navotas Fish Port</li> <li>Alumahan - Navotas Fish Port</li> </ol> </li> </ol>																								
	<p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Katsuwonus pelamis</i> or Gulyasan - Sliced- (Php-250.00 &amp; 360.00/kg)- Lowest prevailing price of Php250.00/kg was observed in Polo Public market wherein supplies recorded are noted low quality in terms of freshness as compared to the highest recorded price of Php360.00/kg observed in Pasig market sourced from Navotas Fish Port.</li> <li><i>Mugil cephalus</i> or Banak-(Php150.00-320.00/kg)- Lowest prevailing price of Php150.00/kg was observed in Pasig market wherein supplies were noted smaller as compared to the highest recorded price of Php320.00/kg noted in Malabon Central Market wherein supplies recorded were larger in size sourced from Malabon Fish Port.</li> </ol>																								
	<p>(-) - Price Not Available During Price Monitoring  (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
