		Male	145	**140	145	145	**140	-	China
		Female	92	-	92	92	92	-	China

Remarks/Market Observations:

The following observations were gathered from market personnel:

- Minimal unloading of fresh marine commodities were reported at Navotas Fish Port (wholesale) this week. Commodities recorded were malakapas, sapsap, lapad, alakaak, salinyase, dalagang bukid, labahita, and others. For medium-sized local-fresh galunggong laki (*Decapterus macrosoma*), supplies from Zambales, Palawan, and Quezon Province were available at the fish port with recorded prevailing wholesale prices of Php140.00 & 180.00/kg. Other variants of local galunggong such as galunggong babae (*Decapterus ruselli*) and burot (*Decapterus kurroides*) were also reported.
- For medium-sized imported-frozen galunggong laki, supplies imported from China remained evident at Navotas Fish Port (wholesale) at stable prevailing wholesale price of Php145.00/kg this week.
- Meanwhile, ample supplies of medium-sized alumahan were observed on 13 October 2023 at the fish port with recorded prevailing prices of Php113.00/kg, Php160.00/kg, and Php232.00/kg sourced from Bataan, Panay Gulf, and Zambales. Difference in prices might be influenced by the varying sizes of the commodity.
- Sufficient supply of bangus was also noted this week at the fish port. However, only one (1) broker with supply of medium-sized commodity on 13 October 2023 as majority of the supplies were large size (1-2pcs/kg) sourced from Pangasinan and Bulacan.
- Lastly, supplies of medium-sized tilapia were still adequate at the fish port this week. The recorded prevailing wholesale prices were Php115.00 & 120.00/kg. Price difference may be due to the varying sizes of supplies available at the fish port.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong- Zambales, Palawan, Quezon Province
 - Alumahan- Bataan, Panay Gulf, Zambales
 - Imported galunggong - China

(-) - Price and Volume not available during price monitoring

(**) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA- Source Area not available during price monitoring
