Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal quantities of fresh marine commodities were observed among the monitored retail markets this week. This could be due to smaller volumes of supplies purchased and being sold by vendors as demand from the buying public continued to be modest. Further, it has become a common practice in some vendors to acquire larger volumes of supplies to be sold during weekends as influx of buyers in the market is higher than regular weekdays. Nonetheless, adequate supplies of medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was also observed in monitored retail markets this week. The prevailing retail price was at Php200.00/kg and supplies were mostly sourced from Malabon and Navotas Fish Ports. There were still other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) noted in some of the monitored retail markets this week. There were still some markets (Trabajo, Quinta, Balintawak, Munoz & Polo) who sell imported-frozen galunggong this week. Some of the vendors prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell. The prevailing retail price of imported-frozen galunggong is at Php150.00 & 200.00/kg this week. Other imported-frozen commodities like pampano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan were also noted in the market. Adequate supplies for medium-sized alumahan were noted among the monitored retail markets this week. The prevailing retail price were observed at Php240.00/kg. Supplies were mostly sourced from Navotas and Malabon Fish Ports. For bangus, the prevailing retail price remained at a relatively high price of Php180.00/kg this week. Most of the supplies were still sourced from Pangasinan. There are still some vendors in Trabajo, Quinta, Tandang Sora, Galas, and Kamuning Markets which prefer selling larger size of bangus due to higher demand from the buyers. The prevailing retail price of tilapia are at Php 120.00, 130.00, 140.00, & 160.00/kg. Prices vary depending on the source area & size of the commodity and the type of market (primary & secondary). Supplies continued to be sufficient and stable in all monitored retail markets this week. Most of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Ports d. Alumahan - Navotas & Malabon Fish Ports 																									
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Sardinella fimbriata</i> or Tunsoy - (Php80 - 200/kg) - lowest prevailing price of Php80.00/kg were recorded at Navotas Market where supplies were not in good quality (supplies from previous days), hence, the lower price.
