Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <p>1. Minimal but sufficient supply of fresh marine commodities (i.e., samaral, tanigue, balsa, tamban, matambaka, dorado, batalay, gulyasan, etc.) was observed among the monitored retail markets this week. Also, for medium-sized local-fresh galunggong lalaki (<i>Decapterus macrossoma</i>), minimal supply was reported at the monitored retail markets. This could be due to the implementation of Closed Fishing Season for galunggong in Northern Palawan (major source area) on 1 November 2023 until 31 January 2024. The prevailing retail price was at Php280.00/kg and supplies were mostly sourced from Malabon and Navotas Fish Ports. Other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were noted in some of the monitored retail markets this week.</p> <p>2. More supplies of imported-frozen galunggong "lalaki" (<i>Decapterus macrossoma</i>) were noted in the monitored retail markets this week. According to fish vendors, the demand shifted to imported galunggong due to the low supply of local galunggong. Also, some of the vendors prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell. The prevailing retail price of imported-frozen galunggong is at Php200.00 & 280.00/kg this week. There were other imported-frozen commodities like pampano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan noted in the market.</p> <p>3. Limited supplies for medium-sized alumahan were noted among the monitored retail markets this week. The prevailing retail price were observed at Php240.00/kg. Supplies were mostly sourced from Navotas and Malabon Fish Ports.</p> <p>4. The prevailing retail price of medium-sized bangus remained at Php160.00/kg this week. Most of the supplies were still sourced from Bulacan. According to fish vendors, higher demand for larger size of bangus were noted in some of the monitored markets (i.e., Quinta, Tandang Sora, Munoz, Galas, and Kamuning Markets).</p> <p>5. For tilapia, the prevailing retail price of medium-sized tilapia is at Php130.00/kg. Prices vary depending on the source area & size of the commodity and the type of market (primary & secondary). Nonetheless, supplies continued to be sufficient and stable in all monitored retail markets this week. Some of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.</p> <p>6. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:</p> <p>a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Ports d. Alumahan - Navotas & Malabon Fish Ports</p>																									
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Decapterus macrossoma</i> or Galunggong "lalaki" - (Php100 - 200/kg) - lowest prevailing price of Php100.00/kg were recorded at Polo Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php200.00/kg was noted at Maypajo Market where supplies recorded were in good quality, hence, the higher price.</p> <p>2. <i>Mugil cephalus</i> or Banak - (Php140 - 240/kg) - both the lowest and highest prevailing retail price were recorded in Pasig Market. The difference in the price were due to the quality of the commodity, wherein the supply of lowest prevailing price of 140.00/kg was stocks from previous market days and the highest prevailing price of Php240.00/kg was good in quality.</p> <p>3. <i>Nematalosa nasus</i> or Kabasi - (Php100.00 & 300.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Pasig Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php300.00/kg was noted at Malabon Market where supplies recorded were in good quality, hence, the higher price.</p> <p>4. <i>Pseudorhombus sp.</i> or Dapa - (Php300.00 & 400.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Malabon Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price. Highest prevailing price of Php400.00/kg was noted at Mandaluyong Market where supplies recorded were in good quality and sourced from a secondary market, hence, the higher price.</p>																									
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
