Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Adequate displays of fresh marine commodities were noted at the monitored markets this week. However, there was a minimal supply of local fresh galunggong laki (<i>Decapterus macrosoma</i>), leading vendors to buy medium to large size imported-frozen of the commodity sourced mainly from Navotas Fish Port. This may be attributed to the impact of closed fishing season in Northern Palawan which is one of the major sourcing area for the commodity. Meanwhile, majority of the supplies of alumahan were observed to be large-sized this week. Also, supply of other variant (i.e., Hasa-hasa) was still recorded in the monitored markets sourced from Farmers (wholesale), Lucena (Quezon), Malabon and Navotas Fish Port. Stable prices were recorded in aquaculture commodities (i.e., Bangus and Tilapia) as the supplies for both commodities remained adequate at the monitored markets. Despite, majority of the supply of bangus were large-sized sourced from Bulacan and Pangasinan. Major source areas of the top fishery commodities in the monitored markets are as follows: <ul style="list-style-type: none"> b. Retail <ul style="list-style-type: none"> b.1. Bangus - Bulacan b.2. Tilapia - Batangas b.3. Local Galunggong- Malabon Fish Port b.4. Imported Galunggong - Navotas Fish Port b.5. Alumahan -Malabon Fish Port 																								
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Pseudorhombus</i> spp. or Dapa - (Php-300.00-400.00/kg)- highest prevailing price were recorded in Mandaluyong Market, wherein larger supply of the commodity was observed, hence offer in a premium price. Meanwhile, lowest prevailing price is recorded in Malabon Central Market wherein supplies recorded were smaller in size resulting to offer the commodity in a cheaper price. <i>Pterocaesio digramma</i> or Dalagang Bilog-(Php260.00, 300.00, 320.00, 380.00/kg)- Meanwhile, highest prevailing price (Php380.00/kg) of the commodity was noted in Mandaluyong and Marikina markets wherein supplies observed have premium quality in terms of freshness, hence offer in a higher price. On the other hand, lowest recorded price of Php260.00/kg was observed in Pasig and Caloocan Markets, wherein supplies were noted to be smaller in size and relatively lower in quality in terms of freshness sourced from Navotas Fish Port. 																								
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
