Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Sufficient availability of fresh marine commodities was observed among the monitored retail markets this week. However, for medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), minimal supply was observed. This might be due to the ongoing implementation of Closed Fishing Season (CFS) for galunggong (<i>Decapterus</i> spp.) in Northern Palawan (major fishing ground) which will end on 15 January 2024.</li> <li>In connection to the minimal availability of local galunggong variants, supply of medium to large-sized imported-frozen galunggong lalaki was still available among the monitored retail markets this week. Fish vendors particularly in Tandang Sora and Commonwealth markets shifted on selling imported-frozen galunggong or either selling other variant of galunggong (i.e., Balsa) to substitute the demand for local galunggong lalaki.</li> <li>For alumahan, adequate availability was observed in majority of the monitored markets this week. However, large size (4-6pcs/kg) of the commodity remained to be the majority of the supplies observed among the monitored markets sourced from Farmers market (wholesale), Lucena (Quezon), Malabon and Navotas Fish Port. Supply of other variant (i.e., hasa-hasa) was also recorded.</li> <li>No major changes in the prevailing retail prices of bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>) were recorded in the monitored markets this week. In fact, according to vendors lower wholesale price of bangus was noted this week. This might have been resulted due to the sufficient and constant supplies of the commodities from the source areas.</li> <li>Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> <li>Retail <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Navotas Fish Port</li> <li>Imported Galunggong - Navotas Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> </ol> </li> </ol>																									
	<p><b>General Observations:</b></p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Gerres oyena</i> or Malakapas- (Php260.00/kg &amp; Php380.00/kg)- Lowest prevailing price of Php260.00/kg was observed in primary market (i.e., Polo Public Market) wherein supplies were directly sourced from its nearby wholesale market (i.e., Malabon Fish Port), hence supplies are sold in a cheaper price. Meanwhile, highest recorded prevailing price of Php380.00/kg noted in Mandaluyong market were reported to be sold in a delivered price, hence the higher price.</p>																									
<p>(-) - Price Not Available During Price Monitoring  (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.  NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators  Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
