The following observations were gathered from market personnel and vendors this week:

- In general, minimal but sufficient unloading of fresh marine commodities were noted among the monitored retail markets this week. This could be due the ongoing implementation of Closed Fishing Seasons in the Philippines' major fishing areas, such as Northern Palawan (for galunggong), Visayan Sea (for sardines, herrings, and mackerel), and Zamboanga Peninsula (for sardines).
- More specifically, for local-fresh galunggong (*Decapterus macrosoma*), lesser supplies were noted compared from previous months according to vendors. This resulted to an increased in the prevailing retail price of Php280.00/kg. There were other local galunggong variants like "balsa" (*Decapterus macarellus*), "baba" (*Decapterus russelli*) and "burot" (*Decapterus kurroides*) recorded in some of the monitored retail markets this week.
- Due to the limited supply of local galunggong, more supplies of imported-frozen galunggong "lalaki" (*Decapterus macrosoma*) were observed at the monitored retail markets this week. The prevailing retail price of imported-frozen galunggong was at Php200.00/kg this week. According to vendors, some of them prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell. There are other imported-frozen commodities like pampano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan observed in the market.
- Minimal supplies for medium-sized alumahan were noted among the monitored retail markets this week. As a result, higher prevailing retail price was recorded at Php360.00/kg and supplies were mostly sourced from Navotas and Malabon Fish Ports. Prices vary depending on the quality (in terms of freshness), source area and size.
- No changes were noted in the prevailing retail prices of medium-sized bangus and tilapia at Php160.00/kg and Php130-160/kg, respectively, this week. According to vendors, supplies remained stable and sufficient to cater the demand from the consumers. Vendors mostly prefer selling larger size of bangus due to higher demand from the buying public. Most of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas, Pampanga
 - Local Galunggong - Navotas & Malabon Fish Ports
 - Alumahan - Navotas & Malabon Fish Ports
- According to fish vendors, generally, fish demand of customers/buyers remained modest despite the onset of the holiday season. As a result, vendors only opted to purchase minimal volumes of supplies of fishery commodities to ensure all stocks would be sold by the end of the day.

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Penaeus monodon* or Sugpo (Medium) - (Php400 & 950) - lowest prevailing price of Php400.00/kg were recorded at Mega-Q Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price. Highest prevailing price of Php950.00/kg was noted at a secondary market (i.e., Farmers Market) where supplies are mainly sourced from primary market, hence, the higher price.
- lowest prevailing price of Php240.00/kg were recorded at Polo Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php360.00/kg was noted at Mandaluyong Market where supplies recorded were in good quality and sourced from a primary market, hence, the higher price.
- Scylla serrata* or Alimango - Female - (Php600 - 1100/kg) - lowest prevailing price of Php600.00/kg were recorded at Marikina Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php1100.00/kg was noted at Farmers Market where supplies recorded were in good quality and sourced from a primary market, hence, the higher price.
- Sardinella fimbriata* or Tunsay - (Php120 - 220/kg) - lowest prevailing price of Php120.00/kg were recorded at Mega-Q Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php220.00/kg was noted at Polo Market where supplies recorded were in good quality, hence, the higher price.
- Gerres sp.* or Latab - (Php260.00 & 380.00/kg) - lowest prevailing price of Php260.00/kg were recorded at Polo Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price. Highest prevailing price of Php380.00/kg was noted at a secondary market (i.e., Mandaluyong Market) where supplies are mainly sourced from primary market, hence, the higher price.
- Parastromateus niger* or Pompano-Black - (Php300.00 & 450.00/kg) - lowest prevailing price of Php300.00/kg were recorded at Malabon Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price. Highest prevailing price of Php450.00/kg was noted at a secondary market (i.e., Marikina Market) where supplies are mainly sourced from primary market, hence, the higher price.

(-) - Price and Volume not available during price monitoring
 (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
 NA - Source Area not available during price monitoring
