		Male	130	130	130	130	130	-	China, Vietnam
		Female	95 & 100	**95	95 & 100	100	95	-	China, Vietnam

Remarks/Market Observations:

The following observations were gathered from market personnel:

- Lower volume of supplies of fresh marine commodities (i.e., talangka, salay batang, lapad, matambaka, dalgang bukid, gulyasan, batalay, espada, etc.) was noted at Navotas Fish Port (wholesale) this week.
- For local-fresh galunggong (*Decapterus macrosoma*), lesser supplies were still unloaded at the fish port this week. This may be due to the implementation Closed Fishing Season for local galunggong in Northern Palawan on November 1 to January 31. The prevailing wholesale price was at Php160.00/kg. There are other local variants like galunggong "balsa" and "burot" were observed.
- More volume of supplies for imported-frozen galunggong were observed at Navotas Fish Port this week. The prevailing wholesale price remained at Php130.00/kg. Supplies were imported from China and Vietnam. The constant availability of imported-frozen galunggong might possibly be due to minimal volume of local-galunggong variants caused by the prohibition of catching, selling, and buying of galunggong in Northern Palawan (major fishing ground).
- The prevailing wholesale price of both medium-sized bangus and tilapia remained stable at Php130.00-150.00/kg and Php100.00/kg, respectively. This may be attributed to the sufficient supplies unloaded at the said fish port.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas, Pampanga
 - Local galunggong - Zambales, Palawan
 - Alumahan - Masbate
 - Imported galunggong - China, Vietnam

(-) - Price and Volume not available during price monitoring
 (**) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
 NA- Source Area not available during price monitoring
