Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal but adequate displays of fresh marine commodities were reported among the monitored retail markets this week. This might be attributed to the hampered fishing operation brought by the effect of the trough of Low Pressure Area affecting Palawan and Bicol Region. More specifically, limited availability of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was observed. As a result, more vendors were noted selling imported-frozen galunggong due to its ample supply and affordability as compared to its local variant. For alumahan (<i>Rastrelliger kanagurta</i>), only large-sized of the commodity was reported at Commonwealth and Tandang Sora Markets this week. Nevertheless, supply of medium-sized alumahan was recorded in majority of the monitored markets. Display of hasa-hasa (<i>Rastrelliger brachysoma</i>) was also noted. Adequate supply of bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>) were observed among the monitored retail markets this week. Consequently, no major changes in the prevailing retail price of the said commodities. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Navotas Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Farmers market (wholesale), Navotas and Malabon Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Selar crumenophthalmus</i> or Matambaka- (Php180.00, 280.00/kg, 300.00/kg)- Lowest prevailing price of Php180.00/kg was observed in primary market (i.e., Mega-Q Market) wherein supplies were directly sourced from its nearby wholesale market (i.e., Malabon Fish Port) and reported to be imported variant of the commodity, hence supplies are sold in a cheaper price. Meanwhile, highest recorded prevailing price of Php300.00/kg noted in Commonwealth market were reported to have premium quality in terms of freshness, hence the higher price. <i>Siganus</i> spp. or Malaga- (Php260.00/kg- Php500.00/kg)- Lowest prevailing price of Php260.00/kg noted in pasig market were smaller in size as compared to the supplies recorded in Marikina market which supplies observed were larger in size of the commodity, hence the variation in price.
