Remarks/Market Observations:			<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> In general, minimal but sufficient supply of marine fishery commodities was observed among all monitored markets this week. This could be due to the implementation of Closed Fishing Season in Northern Palawan (major fishing ground) for galunggong last 1 November 2023 and Visayan Sea for sardines, herrings, and mackerels last 15 November 2023. The prevailing retail price for local-fresh galunggong (<i>Decapterus macrosoma</i>) increased at Php300.00/kg this week. According to fish vendors, minimal supplies were still noted among the monitored retail markets resulting to a higher retail price. There were other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) noted in some of the monitored retail markets this week. Due to the minimal availability of local variants, most of the available supplies of galunggong in the monitored markets were imported-frozen galunggong "lalaki" (<i>Decapterus macrosoma</i>) this week. The prevailing retail price of imported-frozen galunggong was at Php220, 240 & 280/kg this week. Pampano, salmon mackarel, salmon head & belly, pusit kalawang, and tulingan were other imported commodities available at the monitored markets. The prevailing retail price of alumahan is at Php360.00/kg and were mostly sourced from Lucena and Malabon & Navotas Fish Ports. Minimal supplies were noted this week due to the Closed Fishing Season in Visayan Sea. For bangus, supplies remained stable and sufficient to cater to the demand of the buying public. This resulted to a steady prevailing price at Php180.00/kg this week. There are still some vendors in Muñoz, Trabajo, Galas, and Tandang Sora who prefer selling larger size of bangus due to higher demand from consumers. The prevailing retail price of tilapia remained at a relatively high price of Php180.00/kg. Nonetheless, supplies remained sufficient at the markets this week. Some of the buyers still prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Navotas & Malabon Fish Ports Alumahan - Lucena and Malabon & Navotas Fish Ports

Highest prevailing price of Php360.00/kg was noted at Mandaluyong Market where supplies recorded were in good quality and sourced from a primary market, hence, the higher price. <i>Coryphaena</i> sp. or Pandawan - (Php150 - 440/kg) - lowest prevailing price of Php150.00/kg were recorded at Navotas Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price.
