Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal but still sufficient display of fresh marine commodities was observed at the monitored markets this week. However, vendors still reported a higher wholesale prices specially for marine commodities. This could be attributed due to the effect of cold weather condition in the country affecting the major source area including Bicol Region and MIMAROPA. For local fresh galunggong lalaki (<i>Decapterus macrosoma</i>), minimal supply was recorded which might still be affected by the implementation of Closed Fishing Season of the commodity in Northern Palawan. For imported-frozen galunggong lalaki, supplies remained available for the consumers/ buyers in the monitored markets. For medium-sized alumahan (<i>Rastrelliger kanagurta</i>), limited volume was noted at the monitored retail markets this week. Nevertheless, adequate display of large-sized commodity was observed. Available supply of other variant (i.e., Hasa-hasa) was also noted. Supplies of bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>) continued to be adequate for the consuming public. Fish vendors specifically in Tandang Sora market opted to sell large-sized bangus due to higher demand and pricing as compared to the smaller size of the commodity. Meanwhile, majority of the fish vendors in Commonwealth market sell tilapia from Pampanga over those from Batangas due to its affordability enabling them sell easily. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Farmers market (wholesale) <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> or Alimango (Female) (Php600.00-700.00/kg)- both prevailing prices were recorded in Marikina market wherein lowest prevailing price of Php600.00/kg was noted smaller as compared to the highest recorded prevailing price of Php700.00/kg which is noted to have larger size, hence the higher price. <i>Gerres oyena</i> or Malakapas- (Php260.00 & 360.00/kg)- Lowest prevailing price of Php260.00/kg was observed in primary market (i.e., Polo Public market Market) wherein supplies were directly sourced from its nearby wholesale market (i.e., Malabon Fish Port), hence supplies are sold in a cheaper price. Meanwhile, highest recorded prevailing price of Php360.00/kg noted in secondary market (i.e., Guadalupe market) and were reported to have premium quality in terms of freshness sourced from Lucena (Quezon), hence the higher price. <i>Glossogobius celebius</i> or Biya- (Php200.00 - 420.00/kg)- Lowest prevailing price of Php200.00/kg is noted in Polo Public market wherein smaller size of the commodity was recorded as compared to the supplies noted in Marikina market which supplies observed were larger in size sourced from Lucena (Quezon), hence the offer relatively, higher. 																							
	<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p>
