Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, minimal supply of fresh marine commodities was observed among all the monitored retail markets this week. This could be due to the a.) ongoing implementation of Closed Fishing Season for local galunggong (<i>Decapterus</i> spp.) in Northern Palawan and for sardines, herrings, & mackerels in Visayan Sea; and b.) cold weather condition in the country brought about by the shear line affecting eastern section of Visayas and Mindanao and Northeast monsoon affecting Luzon. Despite the ongoing implementation of Closed Fishing Season for local galunggong (<i>Decapterus</i> spp.) in Northern Palawan, minimal supplies from other source areas (e.g., Zambales, Lucena Quezon) were available in some of the monitored retail markets. Nonetheless, prevailing retail price remained relatively high at Php280 & 320/kg this week due to the limited supply. Other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "baba" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were also noted in some of the monitored retail markets this week. For imported-frozen galunggong lalaki, supplies continued to be abundant at the monitored retail markets. Most of the vendors sell imported-frozen galunggong due to the minimal availability of local variants and lower price making it easier to sell. The prevailing retail price of imported-frozen galunggong was at Php200.00/kg this week. Other imported-frozen commodities like pampano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan were available at the monitored markets. Minimal supplies of alumahan (<i>Rastrelliger kanagurta</i>) were noted at the monitored retail markets this week. The prevailing retail price of alumahan remained at Php360.00/kg and were mostly sourced from Lucena and Malabon & Navotas Fish Ports. The prevailing retail price of bangus (<i>Chanos chanos</i>) remained at Php180.00/kg this week. This may be attributed to the stable and sufficient supplies among the monitored retail markets. Some vendors in Tandang-Sora, Munoz, Galas, and Quinta market prefer selling larger size of bangus due to higher demand from consumers. For medium-sized tilapia (<i>Oreochromis niloticus</i>), supplies remained sufficient and stable at the markets this week. This resulted to a stable price of Php140-160/kg. There are some buyers who prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Zambales, Lucena, & Malabon Fish Ports Alumahan - Lucena and Malabon & Navotas Fish Ports 																							
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Portunus pelagicus</i> or Alimasag (small/medium) - (Php240 & 360) - lowest prevailing price of Php240.00/kg were recorded at Pasig and Balintawak Markets where supplies were sourced directly from nearby Fish Port (e.g., Malabon Fish Port) and were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php360.00/kg was noted at Commonwealth and Marikina Markets where supplies recorded were in good quality, hence, the higher price. <i>Sardinella fimbriata</i> or Tunsoy - (Php70 - 200/kg) - lowest prevailing price of Php70.00/kg were recorded at Navotas Market where supplies were sourced directly from nearby Fish Port (e.g., Navotas Fish Port), hence, the lower price. Highest prevailing price of Php200.00/kg was noted at a secondary market (i.e., Mandaluyong Market) where supplies are mainly sourced from primary market, hence, the higher price. <i>Geres</i> sp. or Latab - (Php240 - 360/kg) - lowest prevailing price of Php240.00/kg were recorded at Pasig Market where supplies were not in good quality, hence, the lower price. Highest prevailing price of Php360.00/kg was noted at Maypajo Market where supplies recorded were in good quality, hence, the higher price. <i>Parupeneus</i> sp. or Saramulyete - (Php240.00 & 400.00/kg) - lowest prevailing price of Php240.00/kg were recorded at Pasig Market where supplies were small size and sourced directly from nearby Fish Port (e.g., Malabon Fish Port), hence, the lower price. Highest prevailing price of Php400.00/kg was noted at a secondary market (i.e., Mandaluyong Market) where supplies are mainly sourced from primary market, hence, the higher price. 																							
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
