Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <p>1. Overall, minimal availability of marine fishery commodities was observed among the monitored retail markets this week. This might be due to the cold weather condition brought about by the Northeast Monsoon "Amihan" affecting Northern Luzon. Additionally, the occurrence of a full moon on February 25, 2024, might have affected the supply of marine commodities, as fishes tend to scatter during this time due to the light attraction brought by moonlight. Meanwhile, for local fresh galunggong lalaki (<i>Decapterus macrosoma</i>), majority of the supplies available were small to medium-sized (12-20 pcs./kg) sourced from various source areas such as Lucena (Quezon), Romblon, Palawan, Farmers Markets (wholesale), Malabon, and Navotas Fish Ports. Another variants of galunggong like burot, balsa, and galunggong babae was also recorded.</p> <p>2. For imported-frozen galunggong lalaki (<i>D. macrosoma</i>), only Balintawak and Commonwealth markets were reported with supplies derived from Navotas Fish Port. The availability of the imported galunggong in the said markets may be due to the existing demand from the buyers specially with food stalls or "carinderia" who prefer uniform size galunggong at affordable price.</p> <p>3. For alumahan (<i>Rastrelliger kanagurta</i>), minimal supplies were observed in most of the monitored retail markets this week. Supplies were reportedly obtained from Navotas Fish Port (retail markets), Malabon Central, Pasig Mega, and Polo Pulic Market.</p> <p>4. For aquaculture commodities like bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>), supplies remained sufficient for the consuming public. More specifically, for medium-sized bangus from Bulacan and Pangasinan, the recorded prevailing retail price was maintained at Php180.00/kg. Meanwhile, for medium-sized tilapia, the recorded prevailing price was Php160.00/kg. These were sourced from Batangas and Pampanga.</p> <p>5. Major source areas of the top fishery commodities in the monitored markets are as follows:</p> <p>a. Retail</p> <p>a.1. Bangus - Bulacan</p> <p>a.2. Tilapia - Batangas</p> <p>a.3. Local Galunggong - Malabon and Navotas Fish Port</p> <p>a.4. Imported Galunggong - Navotas Fish Port</p> <p>a.5. Alumahan - Malabon Fish Port</p>																													
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Decapterus macrosoma</i> or Galunggong lalaki (Small)- (Php140.00 - 320.00/kg)- lowest prevailing price of Php140.00/kg is noted in primary type of market (i.e., Caloocan Public Market) wherein usually offer a cheaper price as they were sourcing directly from wholesale Markets. Meanwhile, highest recorded price of Php320.00/kg was noted from secondary type of market (i.e., Galas Market) which supplies are sourced only from primary market (i.e., Farmers Market).</p> <p>2. <i>Decapterus macrosoma</i> or Galunggong lalaki (Large)- (Php200.00 - 320.00/kg)- lowest prevailing price of Php 200.00/kg was recorded in Pasig Mega Market wherein supplies noted were low quality in terms of freshness as compared to the supplies observed in Malabon Central Market which supplies noted have better quality in terms of freshness sourced from Navotas Fish Port.</p> <p>3. <i>Uroteuthis bartschi</i> or Pusit (lapis)- (Php300.00-400.00/kg)- Similarly, lowest prevailing price of Php 300.00/kg was recorded in Galas Market wherein supplies noted were low quality in terms of freshness as compared to the supplies observed in Kamuning market which supplies noted have better quality in terms of freshness.</p> <p>4. <i>Epinephelus</i> sp. or Lapu-lapu (Red)- (Php550.00 & 650.00/kg)- lowest prevailing price of Php550.00/kg is noted in Malabon Central Market and Marikina Public Market wherein supplies observed were smaller in size as compared to the highest prevailing price of Php650.00/kg noted in Farmers Market and Muñoz Market which noted to have larger size, hence offer relatively higher.</p>
