<b>Remarks/Market Observations:</b>			<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Sufficient volume of fresh marine commodities was observed among the monitored retail markets this week. Consequently, for local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), supplies remained adequate for the consuming public. The recorded prevailing price of medium-sized commodity was stable at Php200.00/kg. Nonetheless, most of the supplies this week were mainly small to medium in size. There were other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) noted in some of the monitored retail markets this week.</li> <li>For imported-frozen galunggong, low availability of supply were still noted at the monitored retail markets this week. This may be due to the plentiful supply of local galunggong, which is more preferred by consumers. The prevailing retail price was at Php140.00-20.00/kg this week. There were other imported-frozen commodities like pampano, salmon mackerel, salmon head &amp; belly, pust kalawang, and tulingan available at the monitored markets.</li> <li>Supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) remained sufficient at the monitored retail markets this week. The prevailing retail price remained at Php240.00/kg. Said supplies were mostly sourced from Lucena and Malabon &amp; Navotas Fish Ports.</li> <li>Same prevailing retail price for medium-sized bangus (<i>Chanos chanos</i>) at Php180.00/kg was noted at the monitored retail markets this week. This may be due to the stable and sufficient supplies recorded. However, some vendors in Trabajo, Tandang Sora, Mega-Q, Galas and Muñoz markets prefer selling larger sized bangus due to higher demand from consumers. Most of the buyers prefer bangus sourced from Pangasinan than bangus sourced from Bulacan due to its premium quality.</li> <li>For tilapia (<i>Oreochromis niloticus</i>), supplies continued to be sufficient and stable at the monitored markets this week. As a result, the prevailing retail price was stable at Php120, 150, &amp; 160/kg. There were still some buyers who prefer tilapia sourced from Batangas due to the commodity's quality (in terms of taste and appearance). Also, there is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.</li> <li>According to vendors, there is still low demand for fishery commodities from buyers at the markets. Most of them decreased their supply for selling to avoid loss while some vendors only open during weekends, where higher number of buyers is observed.</li> <li>Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan, Pangasinan</li> <li>Tilapia - Batangas, Pampanga</li> <li>Local Galunggong - Palawan, Lucena, &amp; Malabon Fish Ports</li> <li>Alumahan - Lucena and Malabon &amp; Navotas Fish Ports</li> </ol> </li> </ol>																											
			<p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Dendrophysa russelli</i> or Alakaak - (Php200 &amp; 300) - lowest prevailing price of Php200.00/kg were recorded at Polo Market where supplies were sourced directly from Navotas Fish Port hence, the lower price. Highest prevailing price of Php300.00/kg was noted at a secondary market (i.e., Mandaluyong Market) where supplies are mainly sourced from primary market, hence, the higher price.</li> <li><i>Glossogobius giuris</i> or Bias - (Php200 - 420/kg) - lowest prevailing price of Php200.00/kg were recorded at Polo Market where supplies were not in good quality (supplies from previous days), hence, the lower price. Highest prevailing price of Php420.00/kg was noted at Marikina Market where supplies recorded were in good quality, hence, the higher price.</li> <li><i>Letrinus</i> sp. or Kanuping - (Php220 - 360/kg) - lowest prevailing price of Php220.00/kg were recorded at Commonwealth Market where supplies were mostly small in size, hence, the lower price. Highest prevailing price of Php360.00/kg was noted at Polo Market where supplies recorded were in good quality, hence, the higher price.</li> </ol>
