Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Overall, sufficient supplies of fresh marine commodities were observed among the monitored retail markets this week. Likewise, supply of local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) continued to be adequate, sourced from Farmers Market (wholesale), Malabon Fish Port, Navotas Fish Port, Lucena (Quezon), Palawan, and Romblon. Some fish vendors, particularly in Quinta market increased their supply this week as they anticipate higher demand due to the observance of Ramadan. Meanwhile, for medium-sized imported-frozen galunggong lalaki (<i>D. macrosoma</i>) limited availability was recorded this week among the monitored retail markets as the supplies of local variants remained sufficient. In fact, only Galas market was reported with supply of medium-sized imported commodity sourced from Navotas Fish Port. Large-sized of the imported galunggong was also noted in Quinta, Guadalupe, Caloocan, and Polo Public markets. Adequate supply of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was still observed among the monitored retail markets. Availability of other variant (i.e., Hasa-hasa) was also noted sourced from Farmers market (wholesale), Lucena, Malabon and Navotas Fish Port. For bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>), supplies remained sufficient to cater to the demand of the buying public. Most of the supply of bangus (<i>C. chanos</i>) was chiefly from Bulacan and Pangasinan. Meanwhile, supply of tilapia (<i>O. niloticus</i>) was mostly from Batangas and Pampanga. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port 																																										
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Penaeus monodon</i> or Suggo (Medium)- (Php480.00 - 670.00/kg)- the lowest prevailing price of Php480.00/kg is noted in the primary type of market (i.e., Caloocan Public Market), wherein supplies noted were of low quality in terms of freshness as compared to the supplies observed in Malabon Central Market, where supplies noted had better quality in terms of freshness sourced from Malabon Fish Port. <i>Scylla serrata</i> or Alimango (Male)- (Php600.00 - 700.00/kg)- both prevailing prices were recorded in Malabon Fish Port, wherein the lowest prevailing price of Php 600.00/kg was noted to have a smaller size as compared to the highest recorded price of Php 700.00/kg, which was noted to have a larger size, hence offer a relatively higher price. <i>Sillago sihama</i> or Asohos - (Php180.00-400.00/kg)- Similarly, the lowest prevailing price of Php 180.00/kg was recorded in Guadalupe Market, wherein supplies noted were of low quality in terms of freshness as compared to the supplies observed in Marikina Market, where supplies noted had better quality in terms of freshness. 																																										
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
