**Remarks/Market Observations:**

**The following observations were gathered from market personnel and vendors this week:**

- Despite the occurrence of full moon, ample quantities of fresh marine commodities were still noted at the monitored retail markets this week. More specifically, for medium-sized alumahan (*Rastrelliger kanagurta*), supplies remained sufficient and priced at Php240.00-300.00/kg at the monitored retail markets this week. Supplies were mostly sourced from Lucena and Malabon & Navotas Fish Ports.
- For local-fresh galunggong lalaki (*Decapterus macrerosoma*), adequate supplies were still observed this week. However, the recorded prevailing price increased from Php260.00/kg last week to Php280.00/kg this week. This might possibly be attributed to the high demand as more consumers were observed purchasing fish due to the observance of Lenten Season. There were other local galunggong variants like "balsa" (*Decapterus macarellus*), "babae" (*Decapterus russelli*) and "burot" (*Decapterus kurraoides*) noted in some of the monitored retail markets this week.
- Low availability of imported-frozen galunggong were still noted due to the abundant supply of local-fresh galunggong at the monitored retail markets this week. More specifically, only Guadalupe was observed with an available supply of imported-frozen galunggong priced at Php240.00/kg. Other imported-frozen commodities like pompano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan were recorded at the monitored markets.
- For bangus, same prevailing retail price at Php180.00/kg was noted due to the stable and sufficient supplies at the monitored retail markets this week. There were some vendors in Quinta, Tandang Sora, Munoz, Galas and Kamuning markets who prefer selling larger sized bangus due to higher demand from consumers. Most of the buyers prefer bangus sourced from Pangasinan than bangus sourced from Bulacan due to its premium quality.
- No changes were observed in the prevailing retail price of tilapia (*Oreochromis niloticus*) this week. According to vendors, this may be attributed to the continued stable and sufficient supplies at the monitored markets this week. The prevailing retail price was stable at Php140.00/kg. Some buyers still prefer tilapia sourced from Batangas than sourced from Pampanga due to the commodity's quality (in terms of taste and appearance). Also, there is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia.
- According to vendors, higher demand from consumers were observed this week following the observance of Lenten Season.
- Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas:
  - Bangus - Bulacan, Pangasinan
  - Tilapia - Batangas, Pampanga
  - Local Galunggong - Palawan, Lucena, & Malabon Fish Ports
  - Alumahan - Lucena and Malabon & Navotas Fish Ports
